## **Migration And Health In A Small Society The Case Of Tokelau:**

**Migration and Health in a Small Society**, 1992      Migration and Health in a Small Society Albert F. Wessen, 1992

Between 1965 and 1975 a large proportion of the population of Tokelau a group of three tiny isolated atolls in the tropical South Pacific migrated to New Zealand where they became part of a cosmopolitan urban society By 1985 two thirds of all Tokelauans lived in New Zealand This book traces the experience of the Tokelauans both migrant and non migrant during the period 1965 85 The analysis is interdisciplinary drawing upon historical ethnographic sociological and epidemiological materials Topics discussed include the ecology and history of Tokelau the nature of Tokelauan culture and society the problems of adaptation faced by migrants to New Zealand and their efforts to develop a viable Tokelauan community there the impact of modernizing influences upon atoll society changes in the health status of both migrant and non migrant Tokelauans and the relationship of social change to the health of the population Special attention is paid to the hypothesis that the migrants adaptation to modern urban society would lead to increased incidence of such chronic conditions as hypertension coronary heart disease asthma and diabetes The work serves as a valuable and in many ways unique source of information for public health professionals medical anthropologists sociologists and specialists in development policy

Migration in South and Southern Africa Pieter Kok (Zuid-Afrika.), 2006 Covers three broad areas macro level migration trends in sub Saharan Africa micro level factors in South African migration and a synthesis of current migration theory

**The Development of Modern Epidemiology** Walter W Holland, Jørn Olsen, Charles du V. Florey, 2007-04-05 This book marks the 50th anniversary of the foundation of the International Epidemiological Association IEA It is a unique compendium by the world's leading epidemiologists of how the field has developed and how it can be and has been applied to the control of common conditions and threats to public health Five distinct sections guide the reader through the wealth of material Gives an historical account of the concepts and ideas and current importance of epidemiology to global health issues and to organisations such as the WHO Illustrates the advances and contributions to epidemiologic knowledge and the control of disease in specific areas such as cancer cardiovascular disease respiratory disease tuberculosis maternal and child health non biologic disorders such as war and disasters and new infectious diseases Outlines the use of epidemiology in areas such as public health health services occupational and environmental medicine social epidemiology and nutrition Discusses methodological developments such as statistics information sources investigation of disease outbreaks and clinical epidemiology Looks at how the subject has developed internationally with perspectives on regions such as the Americas Poland Spain Eastern Mediterranean New Zealand China Thailand and Japan This remarkable insight into how epidemiology has developed is essential reading for both existing and aspiring epidemiologists      **The Last Colonies** Robert Aldrich, John Connell, 1998-07-13 This comprehensive and authoritative book is about the last colonies those remaining territories formally dependent on metropolitan powers It discusses the surprisingly large number of these territories mainly small isolated

islands with limited resources Yet these places are not as obscure as might be expected They may be major tourist destinations military bases satellite tracking stations tax havens or desolate underpopulated spots that can become international flashpoints such as the Falklands The authors find that at a time of escalating nationalism and globalization these remnants of empire provide insights into the meanings of political economic legal and cultural independence as well as sovereignty and nationhood This book provides a broad based and provocative discussion of colonialism and interdependence in the modern world from a unique perspective *Historical Dictionary of Polynesia* Robert D. Craig, 2011 The term Polynesia refers to a cultural and geographical area in the Pacific Ocean bound by what is commonly referred to as the Polynesian Triangle which consists of Hawai i in the north New Zealand in the southwest and Easter Island in the southeast Thousands of islands are scattered throughout this area most of which are currently included in one of the modern island states of American Samoa Cook Islands French Polynesia Hawai i New Zealand Samoa Tonga Tokelau Tuvalu and Wallis and Futuna The third edition of the *Historical Dictionary of Polynesia* greatly expands on the previous editions through a chronology an introductory essay an expansive bibliography and over 400 cross referenced dictionary entries on significant persons events places organizations and other aspects of Polynesian history from the earliest times to the present Appendixes of the major islands and atolls within Polynesia the rulers and administrators of the 13 major island states and basic demographic information of those states are also included *Small Worlds, Global Lives* Russell King, John Connell, 1999-10-01 Geologists most from Australia and Britain but with some outliers from continental Europe and North America focus on small islands where the scarcity of people and resources make migration substantially important socially and economically The topics include the Azores historical cultural and literary perspectives on emigration from the minor islands of Ireland Nevis and the post war labor movement in Britain islands and the migration experience in the fiction of Jamaica Kincaid from dystopia to utopia on Norfolk Island Tongans online the changing contours of migrant Samoan kinship and finding a retirement place in sunny Corfu Migration and Health in Urban Areas of Vietnam Nguyen Thanh Liem, 2004

Tokelau Judith Huntsman, Antony Hooper, 1996 Tokelau A Historical Ethnography is the outcome of more than two decades of intensive and wide ranging research in and about the three tiny Polynesian atolls known as Tokelau The book is both a comparative ethnographic study of the islands of Tokelau and a narrative record of their past The ethnographic study is set in the years around 1970 and local narratives and records complement foreign documents to tell the separate and combined stories of the atolls traditional contact and colonial pasts Throughout the differences and interrelationships between the three places are highlighted **Elespie & Ian** Ian Prior, 2006 This is the story of two unusual families who came together in 1946 with the marriage of Elespie Forsyth and Ian Prior in Dunedin Elespie was a grand daughter of the renowned arts patron Willi Fels and a member of the Hallenstein dynasty Ian came from a family steeped in Methodist missionary work medical and humanitarian values What followed was a wonderful fifty six year union characterised by Ian s

grounding work in epidemiology and his and Elespie's support of the arts to a degree seldom seen in Aotearoa New Zealand. Another aspect of this family story is their courageous involvement in campaigns for health and social justice, the environment, nuclear disarmament, peace, and Maori and Pacific issues. The foundation of it all is the rich heritage of two families and the enduring love of Ian and Elespie.

**Tokelau** Peter McQuarrie, 2007. Having spent two years in Tokelau, Peter McQuarrie candidly shares the rich history and culture of this relatively unknown group of Pacific atolls. He also shares geographic information about the atolls, their flora and fauna, the relationship between Tokelauans and other Pacific islanders, and the special links with Tuvalu.

The Structure of an African Pastoralist Community Renee Pennington, Henry Harpending, 1993. A detailed descriptive insight into the history and ecology of the Herero traditional cattle pastoralists of the northern Kalahari desert. Combining ethnographic detail and extensive data collection and analysis using new methods, the book shows how anthropology can and should be informed by careful study of population dynamics. This unique demographic analysis reveals features of the population recovery from African infertility: preferential survival of females, extraordinary longevity of the elderly, high rates of child fostering that have profound importance for social life, yet that are missed by much traditional ethnography.

**AMERICAN JOURNAL OF ANTHROPOLOGY**, *Birthing in the Pacific* Vicki Lukere, Margaret Jolly, 2002. This collection explores birthing in the Pacific against the background of debates about tradition and modernity. A wide-ranging introduction and conclusion, together with case studies from Papua New Guinea, New Caledonia, Vanuatu, Fiji, and Tonga, show how simple contrasts between traditional and modern practices, technocratic and organic models of childbirth, indigenous and foreign approaches, and notions of before and after can be potent but problematic. The difficulties entailed confront public health programs concerned with practical issues of infant and maternal survival in developing countries, as well as scholarly analyses of birthing in cross-cultural contexts. The introduction analyzes central concepts and themes: questions of survival, safety, and well-being; the significance of postures, practices, and sites; the role of midwives, traditional birth attendants, and nurses; and the role of men in birthing and reproduction. Contributors, four anthropologists, a historian, and a community health worker, offer insights into the ways mothers, midwives, and nurses relate the traditional and the modern, and how ideas of tradition and modernity have shaped representations of Pacific childbirth. The conclusion provides researchers with a guide to relevant literature from several disciplines. As a whole, the collection warns against either a celebration of emancipation through biomedicine or a recuperative romance about women's past powers in reproduction.
