## **Migrant Races:**

**Migrants and Race in the US** Philip Kretsedemas, 2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and race that extend beyond the US and makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *Immigration and Race Attitudes* Emory Stephen Bogardus, 1928 **Races and Immigrants in**

**America** John Rogers Commons, 1920 *The Immigrant* Frederic Jennings Haskin, 1913 **Cricket Country** Prashant Kidambi, 2018-11-12 Cricket is an Indian game accidentally invented by the English it has famously been said Today the Indian cricket team is a powerful national symbol a unifying force in a country riven by conflicts But India was represented by a cricket team long before it became an independent nation Drawing on an unparalleled range of original archival sources Cricket Country is the story of the first All India cricket tour of Great Britain and Ireland It is also the extraordinary tale of how the idea of India took shape on the cricket field in the high noon of empire Conceived by an unlikely coalition of colonial and local elites it took twelve years and three failed attempts before an Indian cricket team made its debut on the playing fields of imperial Britain This historic tour which took place against the backdrop of revolutionary politics in the Edwardian era featured an improbable cast of characters The teams young captain was the newly enthroned ruler of a powerful Sikh state The other cricketers were chosen on the basis of their religious identity Remarkably for the day two of the players were Dalits Over the course of the blazing Coronation summer of 1911 these Indians participated in a collective enterprise that epitomizes the way in which sport and above all cricket helped fashion the imagined communities of both empire and nation

*Migration and Business Cycles* Harry Jerome, 1926 *Migrants and Race in the US* Philip Kretsedemas, 2013-10-23 This book explains how migrants can be viewed as racial others not just because they are nonwhite but because they are racially alien This way of seeing makes it possible to distinguish migrants from a set of racial categories that are presumed to be indigenous to the nation In the US these indigenous racial categories are usually defined in terms of white and black Kretsedemas explores how this kind of racialization puts migrants in a quandary leading them to be simultaneously raced and situated outside of race Although the book focuses on the situation of migrants in the US it builds on theories of migrants and

race that extend beyond the US and makes a point of criticizing nation centered explanations of race and racism These arguments point toward the emergence of a new field visibility that has transformed the racial meaning of nativity migration and migrant ethnicity It also situates these changing views of migrants in a broader historical perspective than prior theory explaining how they have been shaped by a changing relationship between race and territory that has been unfolding for several hundred years and which crystallizes in the late colonial era *Races and Immigrants in America* John Rogers Commons,1907 The Survey ,1922 Reports of the Immigration Commission United States. Immigration Commission (1907-1910),1911 *Immigration and crime* United States. Immigration Commission (1907-1910),1911 **Races and Immigrants in America** John R. Commons,2022-11-13 In *Races and Immigrants in America* John R Commons offers a profound examination of the socio economic dynamics that shape the experiences of diverse racial and ethnic groups in the United States Drawing from a wealth of historical data Commons employs a rigorous analytical lens effectively intertwining statistical analysis with narrative storytelling His project is situated within the early 20th century intellectual landscape that grappled with issues of labor race and immigration reflecting the tumultuous social realities of a nation in flux The book s incisive arguments challenge prevailing narratives by investigating how policy economics and cultural perceptions collectively influence the immigrant experience John R Commons was a pivotal figure in the development of labor economics and sociology deeply influenced by the Progressive Era s ideals of social reform His commitment to understanding the intricacies of economic cooperation and the role of governmental intervention in ameliorating societal inequities is evident throughout his work Commons s blending of empirical research with a philosophical inquiry into the American identity provided a necessary foundation for this pivotal exploration of race and immigration This book is essential for readers interested in American history sociology and immigration studies Commons s insightful analysis invites a critical reflection on the intersection of race policy and economic opportunity an inquiry that remains crucial in contemporary discourses on immigration and identity Engaging and thought provoking it is a vital resource for scholars and general readers alike

**Immigrant Health and the Community** Michael Marks Davis,1921 *Charities and the Commons* ,1908 **Oriental World** ,1919 **Statistical Report on the External Migration of the Dominion of New Zealand for the Year ...** ,1923

**Eugenical News** ,1923 The New England Magazine ,1904 **Race and Immigration** Nazli Kibria,Cara Bowman,Megan O'Leary,2013-11-18 Immigration has long shaped US society in fundamental ways With Latinos recently surpassing African Americans as the largest minority group in the US attention has been focused on the important implications of immigration for the character and role of race in US life including patterns of racial inequality and racial identity This insightful new book offers a fresh perspective on immigration and its part in shaping the racial landscape of the US today Moving away from one dimensional views of this relationship it emphasizes the dynamic and mutually formative interactions of race and immigration Drawing on a wide range of studies it explores key aspects of the immigrant experience

such as the history of immigration laws the formation of immigrant occupational niches and developments of immigrant identity and community Specific topics covered include the perceived crisis of unauthorized immigration the growth of an immigrant rights movement the role of immigrant labor in the elder care industry the racial strategies of professional immigrants and the formation of pan ethnic Latino identities Written in an engaging and accessible style this book will be invaluable for advanced undergraduate and beginning graduate level courses in the sociology of immigration race and ethnicity
