## **Migration Des Zombis:**

*Ethnic Minority Migrants in Britain and France* Rahsaan Maxwell, 2012-03-05 This book addresses why some ethnic minority migrant groups have better economic and political integration outcomes than others. The central claim is that social integration leads to trade offs with economic and political integration. The logic behind this claim is that socially segregated groups may have difficulties interacting with mainstream society but will have more capacity for group mobilization. That mobilization can improve economic and political integration. In comparison, socially integrated groups may have greater capacity to interact with mainstream society but also less likelihood of developing significant group mobilization resources. As a result, this can limit their economic and political integration outcomes. Rahsaan Maxwell develops this argument with evidence from Britain and France, claiming that similar group level dynamics exist despite numerous national level contextual differences and provides a brief extension of the argument to The Netherlands and the United States.

*The Migration and Politics of Monsters in Latin American Cinema* Gabriel Eljaiek-Rodríguez, 2018-09-26 The Migration and Politics of Monsters in Latin America proposes a cinematic cartography of contemporary Latin American horror films that take up the idea of the American continent as a space of radical otherness or monstrosity and use it for political purposes. The book explores how Latin American film directors migrate foreign horror tropes to create cinematographic horror hybrids that reclaim and transform monstrosity as a form of historical rewriting. By emphasizing the specificities of the Latin American experience, this book contributes to broad scholarship on horror cinema at the same time connecting the horror tradition with contemporary discussions on violence, migration, fear of immigrants, and the rewriting of colonial discourses.

**Remembering Violence** Nicolas Argenti, Katharina Schramm, 2010 Psychologists have done a great deal of research on the effects of trauma on the individual, revealing the paradox that violent experiences are often secreted away beyond easy accessibility, becoming impossible to verbalize explicitly. However, comparatively little research has been done on the transgenerational effects of trauma and the means by which experiences are transmitted from person to person across time to become intrinsic parts of the social fabric. With eight contributions covering Africa, Central and South America, China, Europe, and the Middle East, this volume sheds new light on the role of memory in constructing popular histories or historiographies of violence in the absence of or in contradistinction to authoritative written histories. It brings new ethnographic data to light and presents a truly cross-cultural range of case studies that will greatly enhance the discussion of memory and violence across disciplines.

**The Spirits and the Law** Kate Ramsey, 2014-02-07 Vodou has often served as a scapegoat for Haiti's problems, from political upheavals to natural disasters. This tradition of scapegoating stretches back to the nation's founding and forms part of a contest over the legitimacy of the religion both beyond and within Haiti's borders. *The Spirits and the Law* examines that vexed history, asking why from 1835 to 1987 Haiti banned many popular ritual practices. To find out, Kate Ramsey begins with the Haitian Revolution and its aftermath. Fearful of an independent black nation inspiring similar revolts, the United States

France and the rest of Europe ostracized Haiti Successive Haitian governments seeking to counter the image of Haiti as primitive as well as contain popular organization and leadership outlawed spells and later superstitious practices While not often strictly enforced these laws were at times the basis for attacks on Vodou by the Haitian state the Catholic Church and occupying U S forces Beyond such offensives Ramsey argues that in prohibiting practices considered essential for maintaining relations with the spirits anti Vodou laws reinforced the political marginalization social stigmatization and economic exploitation of the Haitian majority At the same time she examines the ways communities across Haiti evaded subverted redirected and shaped enforcement of the laws Analyzing the long genealogy of anti Vodou rhetoric Ramsey thoroughly dissects claims that the religion has impeded Haiti s development **Tensions and Tradeoffs** Rahsaan Daniel Maxwell,2008

**Cultural Mobilities Between Africa and the Caribbean** Birgit Englert,Barbara Gföllner,Sigrid Thomsen,2021-06-17 This book investigates the cultural connections between Africa and the Caribbean using the lens of Mobility Studies to tease out the shared experiences between these highly diverse parts of the world Despite their heterogeneity in terms of cultures languages and political and economic histories the connections between the African continent and the Caribbean are manifold stretching back to the trans Atlantic slave trade The authors in this book look to the past as well as to the present focusing on the manifold mobile connections between the regions subjects objects ideas texts images sounds and beliefs In doing so the book demonstrates that mobility extends beyond just the movement of people and that we can also see mobility in objects and ideas travelling either in a material sense or in imaginary terms in physical as well as in virtual spaces Bringing the transdisciplinary fields of African Studies Caribbean Studies and Mobility Studies into dialogue this book will be of interest to students and scholars across the humanities and social sciences The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4 0 license Funded by Universit t Wien
