## **Opposing Poetries:**

**Opposing Poetries** Hank Lazer, 1996-08-12 Begins a series presenting collections of survey articles pivoting around the notion of computation. The inaugural topics include generalized rational approximation subject to linear constraints matrix exponential approximations in the numerical solution of differential equations unbounded fan in circuits and fixpoint semantics for a Petri net model of definite clause logic programs. Each article is self contained and all assume a high sophistication in mathematics. Future volumes may focus on a special subfield such as computational graph theory approximation or computability. Annotation copyright by Book News Inc Portland OR **Opposing Poetries: Readings** Hank Lazer, 1996 Opposing Poetries presents a selection of Hank Lazer's writing on a range of issues in contemporary American poetry. Through a series of recurring cultural material and institutional perspectives Lazer investigates the assumptions and habits that govern conflicting conceptions of contemporary American poetry while refining reconsidering and questioning his own and modern theorists' assertions and claims relating to experimental poetry. In Volume Two Lazer presents a series of sustained readings of important experimental texts. Included are the poets Susan Howe Lyn Hejinian Bruce Andrews and James Sherry. Lazer places these poets in the context of contemporary literary theory and inspects both the successes and failures of said theory to interpret these works. **Opposing Poetries: Readings** Hank Lazer, 1996 Explains to structural engineers some of the basic equations for analyzing and designing buildings that were devised at the end of the 19th century but were so unmanageably complex to solve that they were displaced by approximation techniques until the recent advent of electronic computer engineering. U of Cambridge warns that some of the equations turn out not to fit reality as close as future occupants of buildings might prefer and explains how to use them and in what context. Through a series of recurring cultural material and institutional perspectives Lazer investigates the assumptions and habits that govern conflicting conceptions of contemporary American poetry while refining reconsidering and questioning his own and modern theorists' assertions and claims relating to experimental poetry. Volume One examines the shift in the governing assumptions of contemporary poetic practice. Lazer inspects the key critical works addressing poetries in the 1980s and 1990s as well as the political and aesthetic impact of modern critics poetry reading programs and of the publishing industry and libraries on contemporary poetic practice.

**Poetry's Afterlife** Kevin Stein, 2010-07 The great pleasure of this book is the writing itself. Not only is it free of academic and lit crit jargon it is lively prose often deliciously witty or humorous and utterly contemporary. Poetry's Afterlife has terrific classroom potential from elementary school teachers seeking to inspire creativity in their students to graduate students in MFA programs to working poets who struggle with the aesthetic dilemmas Stein elucidates and to teachers of poetry on any level. Beckian Fritz Goldberg Arizona State University Kevin Stein is the most astute poet critic of his generation and this is a

crucial book confronting the most vexing issues which poetry faces in a new century David Wojahn Virginia Commonwealth University At a time when most commentators fixate on American poetry s supposed death Kevin Stein s Poetry s Afterlife instead proposes the vitality of its aesthetic hereafter The essays of Poetry s Afterlife blend memoir scholarship and personal essay to survey the current poetry scene trace how we arrived here and suggest where poetry is headed in our increasingly digital culture The result is a book both fetchingly insightful and accessible Poetry s spirited afterlife has come despite or perhaps because of two decades of commentary diagnosing American poetry as moribund if not already deceased With his 2003 appointment as Illinois Poet Laureate and his forays into public libraries and schools Stein has discovered that poetry has not given up its literary ghost For a fated art supposedly pushing up aesthetic daisies poetry these days is up and about in the streets schools and universities and online in new and compelling digital forms It flourishes among the people in a lively if curious underground existence largely overlooked by national media It s this second life or better Poetry s Afterlife that his book examines and celebrates Kevin Stein is Caterpillar Professor of English and Director of the Creative Writing Program at Bradley University and has served as Illinois Poet Laureate since 2003 having assumed the position formerly held by Gwendolyn Brooks and Carl Sandburg He is the author of numerous books of poetry and criticism digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society culture and scholarly communication Visit the website at [www.digitalculture.org](http://www.digitalculture.org)
