 was the nickname given to the loose conglomeration of pioneering individuals who found themselves among the first new  
 collectors of photography Operating purely on instinct and the love of seeing these few dozen people including Sam Wagstaff  
 Andre Jammes and other now legendary collectors shared a distaste for established pantheons and veered instead toward the  
 lesser known the anonymous the outr or any photograph emanating sparks of electricity Photography was their perfect  
 vehicle and they were startled to find themselves in so much uncharted territory The little known images in THE EYE CLUB  
 have been assembled in a related spirit of adventure An elastic web of connections replaces chronological order Many of the  
 pictures but by no means all are by artists who have been central to the gallery s history but when images by well known  
 photographers appear they are rarely among their creator s most celebrated works The identity of several of the picture  
 makers remains unknown or virtually so Photography persists as an unruly medium and this book and exhibition are  
 comprised of an unruly group of photographs brought together in the open eyed spirit of The Eye Club to mark the gallery s
