## **Opposing Hate Speech:**

**Opposing Hate Speech** Anthony Cortese, 2005-11-30 What happens when two deeply held American values freedom of expression and freedom from discrimination clash In any well established democratic society people have the right to free speech as well as the right to equal treatment and protection under the law But when one person's speech harms another person on the basis of race ethnicity religion gender or sexual orientation it may qualify as hate speech and be subject to restriction Cortese argues that restricting hate speech does not violate the guiding principle behind the First Amendment but he is not eager to see more lawsuits Effective restriction he asserts should not focus on litigation but on speech codes and moral education Is there a limit to freedom of expression in a democracy and if so where should the line be drawn In attempting to answer that question Cortese makes a solid case for paying attention to context and common sense Some hate speech is more reprehensible than others not all discriminatory statements are equally serious There is a discernible difference between an offensive remark and an incitement to commit murder There is also a fundamental distinction between intentional and unintentional discrimination In this book Cortese rethinks some of the issues that have been silenced in ways harmful to many especially those that have been brutalized oppressed manipulated dominated segregated and disadvantaged We should recognize the grave injuries inflicted by hate speech and the potential tensions between legal solutions to those injuries and the First Amendment We must push for moral education educational speech codes and when necessary a formal legal structural response to hate speech in order to reinforce our commitment to tolerance as a value **We can!** Agata de Latour, Nina Perger, Ron Salag, Claudio Tocchi, Paloma Viejo Otero, 2017-05-23 Combating hate speech offline and online a new tool to help young people and educators to confront dismantle and replace hateful narratives Online hate speech has become a major form of human rights abuse with serious sometimes tragic consequences both online and offline Hate speech cannot be allowed to proliferate without being challenged and exposed in its nature prejudicial views on social groups combined with fake news which feed phobias and fears seem attractive as narratives Narratives give a meaning to information presented because they connect with what people believe or want to believe in Their widespread presence online accredits their claims for legitimacy But narratives are rarely the truth and never the whole truth When they are used to oppress people as in hate speech the fundamentals of a pluralistic and democratic society are undermined and the lives and dignity of people are at risk Counter narratives are thus needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights

Wilson, 2024-08-29 Genocide murders innocents in a society and it leaves behind moral corruption and societal twistedness A genocide like the Holocaust can happen only if the normative ethical commitments to honor the fundamental right to life are compromised or abandoned When a society lives through a genocide the moral imagination of peoples and collectives their ethical behaviors and even the underlying social contract become twisted and broken Societies and individuals caught within a genocide need an ethical rehabilitation to move a post genocidal society out of its ethical degradation This book discusses the steps of transitional justice as ethical ways to move individuals and societies away from lingering injustices and toward an equilibrium of justice **We Can!** Agata de Latour, Nina Perger, Ron Salaj, Council of Europe( CoE), Claudio Tocchi, Paloma Viejo Otero, 2017-06 Combating hate speech offline and online a new tool to help young people and educators to confront dismantle and replace hateful narratives Online hate speech has become a major form of human rights abuse with serious sometimes tragic consequences both online and offline Hate speech cannot be allowed to proliferate without being challenged and exposed in its nature prejudicial views on social groups combined with fake news which feed phobias and fears seem attractive as narratives Narratives give a meaning to information presented because they connect with what people believe or want to believe in Their widespread presence online accredits their claims for legitimacy But narratives are rarely the truth and never the whole truth When they are used to oppress people as in hate speech the fundamentals of a pluralistic and democratic society are undermined and the lives and dignity of people are at risk Counter narratives are thus needed to discredit and deconstruct the narratives on which hate speech is based Alternative narratives are also needed to reinforce positive values and perspectives which support human rights and democratic citizenship such as solidarity respect for diversity freedom and equality Young people need to occupy online public space with positive narratives based on hope and love This manual presents communicative and educational approaches and tools for youth and other human rights activists to develop their own counter and alternative narratives to hate speech It is designed for working with young people from the age of 13 and is based on the principles of human rights education and youth participation Anyone can take action against speech By providing insights into hate speech and human rights and a methodology for producing counter narratives We Can makes that action easier more effective and positive The Council of Europe launched the No Hate Speech Movement campaign to mobilise young people for human rights online and to combat hate speech Education plays a central role in the campaign This manual complements Bookmarks A manual for

**The Harm in Hate Speech** Jeremy Waldron, 2012-06-04 Every liberal democracy has laws or codes against hate speech except the United States For constitutionalists regulation of hate speech violates the First Amendment and damages a free society Against this absolutist view Jeremy Waldron argues powerfully that hate speech should be regulated as part of our commitment to human dignity and to inclusion and respect for members of vulnerable minorities Causing offense by depicting a religious leader as a terrorist in a newspaper cartoon for example is not the same as launching a libelous attack on a group s dignity according to Waldron and it lies outside the reach of law But defamation of a minority group through hate speech undermines a public good that can and should be protected the basic assurance of inclusion in society for all members A social environment polluted by anti gay leaflets Nazi banners and burning crosses sends an implicit message to the targets of such hatred your security is uncertain and you can expect to face humiliation and discrimination when you leave your home Free speech advocates boast of despising what racists say but defending to the death their right to say it Waldron finds this emphasis on intellectual resilience misguided and points instead to the threat hate speech poses to the lives dignity and reputations of minority members Finding support for his view among philosophers of the Enlightenment

Waldron asks us to move beyond knee jerk American exceptionalism in our debates over the serious consequences of hateful speech

**Campus Hate Speech on Trial** Timothy C. Shiell,2009 Ban it the initial arguments for campus speech codes Wayne dick s plea the critics fight back See you in court the campus hate speech cases Hostile environment takes a front seat The attack on hostile environment And the verdict is The debate 1998 2008 Islam Against Hate Speech Husein Muhammad,Siti Aminah,2018 Radical Critiques of the Law Stephen M. Griffin,Robert C. L. Moffat,1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which

finds the individualism of prevailing liberal theories too limiting *Radical Critiques of the Law* is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best *Hate Crimes* Tamara L. Roleff, 2001 Authors debate the need for penalty enhancement laws for hate crimes the extent and seriousness of hate crimes and whether hate speech should be protected under the First Amendment
