The Graduate Record Exam (GRE) is a standardized test that is required for admission to many graduate schools across North America.

According to OpenAI, the essays that GPT-4 produced for these tests were graded by "qualified third-party contractors".

GPT attempted 10 programming contests 100 times each, but was unable to consistently find solutions to the complex problems.

GPT 4.0 has made impressive strides over GPT 3.5 but continues to struggle in certain subjects.
