

# CULTURAL DIVERGENCE

Cultural divergence refers to the phenomenon where distinct cultures evolve and separate over time, taking different paths in terms of beliefs and values.

## EXAMPLE

**North Korea and South Korea:**  
The division between North Korea and South Korea following World War II serves as an example of cultural divergence due to historical events. While both countries share a common history before the war's end in 1945, today they have vastly different political systems leading to diverging societal norms and cultures.

## DIVERGENCE VS CONVERGENCE

**Cultural divergence:** refers to the process through which different cultures develop distinct characteristics, values, beliefs, and practices over time

**Cultural convergence:** the process by which two or more cultures begin to blend together, resulting in the sharing of values, beliefs, customs, and behaviors.

*Objectivity and Cultural Divergence. Ed. by Stuart Campbell Brown* Stuart Campbell Brown, 1984     *Objectivity and Cultural Divergence* Stuart C. Brown, 1984-10-18     **Anthropology with an Attitude** Johannes Fabian, 2001 This book collects published and unpublished work over the last dozen years by one of today's most distinguished and provocative anthropologists. Johannes Fabian is widely known outside of his discipline because his work so often overcomes traditional scholarly boundaries to bring fresh insight to central topics in philosophy, history, and cultural studies. The first part of the book addresses questions of current critical concern: Does it still make sense to search for objectivity in ethnography? What do we gain when we invoke context in our interpretations? How does literacy change the work of the ethnographer and what are the boundaries between ethnology and history? This part ends with a plea for recuperating negativity in our thinking about culture. The second part extends the work of critique into the past by examining the beginning of modern ethnography in the exploration of Central Africa during the late nineteenth century; the justification of a scientific attitude; the collecting of ethnographic objects; the presentation of knowledge in narration and the role of recognition given or denied in encounters with Africans. A final essay examines how the Congolese have returned the imperial gaze of Belgium by the work of critical memory in popular history. The ten chapters are framed by two meditations on the relevance of theory and the irrelevance of the millennium.

Brown, 1984     **Reader's Guide to the Social Sciences** Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory.
