Obligations Contract Law:

Obligations Douglas George Cracknell, 1998 **Obligations** Vickneswaren Krishnan, 1997 **Obligations** D. G. Cracknell, 2001 *The Law of Contract 1670-1870* Warren Swain, 2015-02-12 The foundations for modern contract law were laid between 1670 and 1870 Rather than advancing a purely chronological account this examination of the development of contract law doctrine in England during that time explores key themes in order to better understand the drivers of legal change These themes include the relationship between lawyers and merchants the role of equity the place of statute and the part played by legal literature Developments are considered in the context of the legal system of the time and through those who were involved in litigation as lawyers judges jurors or litigants It concludes that the way in which contract law developed was complex Legal change was often uneven and slow and some of the apparent changes had deep roots in the past Clashes between conservative and more reformist tendencies were not uncommon *Contract I* Research Group on the Existing EC Private Law, 2007 The Acquis Group also known as the European Research Group on Existing EC Private Law pursues the objective of presenting in a restated form known as the Acquis Principles the large and sometimes incoherent patchwork of existing EC private law These principles reflect the current state of EC law in a structure which allows for the identification of commonalities contradictions and gaps They function as a tool for the better understanding and improvement of EC private law They are also intended to ensure that the existing EC law is appropriately reflected in the broader Common Frame of Reference The principles include a commentary outlining the Acquis foundations as well as definitions of core legal terms and a glossary on terminology Formulated with the Acquis Principles in mind *Contract I* is the first of a new series It covers the areas of general EC contract law which surround the formation of contracts including key rules on pre contractual duties the conclusion of a contract and its content *The Law of Contract* Hugh Collins, 1997 The Law of Contract provides an advanced analysis of the law of contract for undergraduate courses covering the law of contract and the law of obligations *Contract as Promise* Charles Fried, 2009-06-01 This book displays the underlying structure of a complex body of law and integrates that structure with moral principles Charles Fried grounds the basic legal institution of contract in the morality of promise under which individuals incur obligations freely by invoking each other's trust Contract law and the promise principle are contrasted to the socially imposed obligations of compensation restitution and sharing which determine the other basic institutions of private law and which come into control where the parties have not succeeded in invoking the promise principle as in the case of mistake or impossibility Professor Fried illustrates his argument with a wide range of concrete examples and opposing views of contract law are discussed in detail particularly in connection with the doctrines of good faith duress and unconscionability For law students and legal scholars *Contract as Promise* offers a coherent survey of an important legal concept For philosophers and social scientists the book is a unique demonstration of the practical and detailed entailments of moral theory **The Law of Obligations** Andrew Robertson, 2012-07-23 This collection of essays
