"I think it's important  
 to have a good  
 understanding of the  
 world around you,  
 and to be able to  
 communicate that  
 understanding to  
 others. I think that's  
 what a good teacher  
 should do."

There are a number of reasons why the current system of funding for the NHS is not sustainable. The current system of funding is based on a fixed budget, which is not sufficient to cover the costs of the services provided. This is due to a number of factors, including the increasing costs of drugs, medical equipment, and staff. The current system also does not take account of the needs of the population, which is ageing and becoming more health conscious. As a result, the NHS is facing a crisis, and it is essential that a new system of funding be developed. The new system should be based on a variable budget, which would allow the NHS to meet the needs of the population. It should also take account of the costs of the services provided, and it should be able to raise the necessary funds from a variety of sources. The new system should be able to ensure that the NHS is able to provide the highest quality of care to the population, and it should be able to do so in a sustainable way.
