The Magic and Science of Jewels and Stones Isidore Kozminsky, 1922      Stone Vessels in the Levant RachaelThyrza Sparks, 2017-07-05 Examining stone vessels in the Levant during the 2nd millennium BC the author explores the links between material culture and society through a comprehensive study of production and distribution Extensively illustrated with 100 drawings maps and charts this volume includes a full object catalogue This study represents the first comprehensive overview of the stone vessel assemblages of the Levant in this period a time which fed by an increase of wealth and interregional trade saw a growth in the popularity and variety of such vessels Previously our understanding of the varied functions and forms of these diverse vessels has been relatively underdeveloped In this volume the author attempts to address this problem by creating a typological framework through which we can analyse variability and define essential characteristics of local stone vessel workshops Only once this has been achieved is it possible to look at stone vessel production in its wider cultural context Subsequent chapters explore broader themes beginning within the workshops themselves examining the links between craftsmen their sources of raw materials and the authorities that controlled and distributed their output Considerations of the geographical and chronological distribution of such goods are then used to provide a regional perspective for the operation of these workshops connections between them and further insights into the nature of local and international trade Finally the objects themselves can be used to assess the impact of trends such as the growing Egyptianization of the ruling classes of the Levant at this time      The Book of Stones Robert Simmons, Naisha Ahsian, 2007 A metaphysical encyclopedia of more than three hundred crystals minerals and gemstones detailing their applications for self healing and spiritual and emotional development along with vivid color photographs of each stone Provided by publisher      The Ethnogeography of the Tewa Indians John Peabody Harrington, 1916      *The Children of the Sun* William James Perry, 1927 List of authorities pages 503 526      **On the Maori Art of Weaving Cloaks, Capes and Kilts** Peter Henry Buck, 1911      **An Inglorious Columbus** Edward Payson Vining, 1885      *Report of the Assistant Director and of the Curators of the U.S. National Museum* United States National Museum, 1902      *Annual Report of the Bureau of Ethnology* Smithsonian Institution. **Technology and Tradition in Mesoamerica after the Spanish Invasion** Rani T. Alexander, 2019-03-15 This impressive collection features the work of archaeologists who systematically explore the material and social consequences of new technological systems introduced after the sixteenth century Spanish invasion in Mesoamerica. It is the first collection to present case studies that show how both commonplace and capital intensive technologies were intertwined with indigenous knowledge systems to reshape local, regional, and transoceanic ecologies, commodity chains, and political, social, and religious institutions across Mexico and Central America.
