## **Obstetrical Nurse:**

Hard Labor Susan L. Diamond, 1996 In Hard Labor Susan L. Diamond B. S. N. R. N. shares a unique insider's view of childbirth. Diamond's lifetime of experience as a prepared childbirth instructor as an obstetrical nurse who spent nearly a decade working on labor and delivery wards and as a mother of two has given her an unmatched perspective on giving birth and on the impact of modern medicine on this most special time for mother and child. Too often in American hospitals today the process of labor and delivery is treated as an illness not as a natural life-altering event. Women are dehumanized by artificially established labor curves and confined by often unnecessary machinery to their personal needs even their privacy subsumed under the rules of the system. Fear of malpractice has added to the rigidity of the system but so has a lack of true caring and a fondness for expediency. Diamond's vision of childbirth as a natural normal event one that should be enhanced not corrupted by modern medicine shines from every page of this powerful emotionally evocative work. Hard Labor introduces readers to dozens of mothers fathers and families and reveals the wide spectrum of triumph and tragedy that fills labor and delivery wards. Diamond's fellow nurses and the doctors with whom they work also spring to life in her vivid recounts of medical disasters and miracles. From accounts of the sadness of death in utero to the joy of unexpectedly delivering twins Hard Labor is a moving reading experience. But more it offers women the information they need to make informed choices about their own plans for childbirth. **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved *A Nurse's Handbook of Obstetrics for Use in Training-schools* Joseph Brown Cooke, 1903
