The Bear Watches the Dragon Alexander Lukin, 2016-09-16 China and Russia two giants dominating the Eurasian landmass share a history of understanding and misunderstanding whose nuances are not well appreciated by outsiders In his interpretation of this relationship from the Russian point of view Alexander Lukin shows how over the course of three centuries China has seemed alternately to threaten mystify imitate mirror and rival its northern neighbor Lukin traces not only the changing dynamics of Russian Chinese relations but the ways in which Russia's images of China more profoundly reflected Russia's self perception and its perceptions of the West as well As both Russia and China take distinctive approaches to political and economic development and integration in the twenty first century global economy this reinterpretation of their relationship is timely and valuable not only to historians but to all students of international affairs
