Mean With Money:

Money David Kinley, 1909 God and Money Nimi Wariboko, 2008-01-01 Making a case for a denationalized global currency as an alternative to the dollar euro and yen as the world vehicular and reserve currencies God and Money explores the significance and theological ethical implications of money as a social relation in the light of the dynamic relations of the triune God Wariboko deftly analyzes the dynamics at work in the global monetary system and argues that the monarchical currency structure of the dollar euro and yen may be moving toward a trinitarian structure of a democratic world currency
