Mons 1914:

Mons 1914 David Lomas, 2012-09-20 Alongside maps and carefully chosen archive photography David Lomas explores The British Expeditionary Force's presence during the battle of Mons and thereafter When the First World War broke out in August 1914 the Imperial German Army mistakenly assumed that the BEF that contemptible little army would be easily defeated They were stopped in their tracks by the numerically inferior British force whose excellent marksmanship cost the closed packed German ranks dear Eventually forced to fall back by overwhelming German numbers the British carried out a masterful fighting retreat across Belgium and northern France At Mons nine and a half British battalions held four German divisions at bay for an entire day This book examines not just the battle of Mons itself but also the ensuing British retreat including the actions at Le Cateau and Villers Cotterêts

Mons 1914-1918 Don Farr, 2008 It was close to the small southern Belgian town of Mons that the shooting war began or the British Expeditionary Force in August 1914 It was close to the same town that it ended for them over fifteen hundred days later Neither the BEF nor the German Army planned or foresaw that first confrontation at Mons It came about through blind chance and a series of miscalculations born of ignorance on both sides of precisely where and how strong their adversaries were Although the Battle of Mons showed the BEF to be more than a match for the Germans it was forced into the long Retreat from Mons as the growing German preponderance became apparent Mons only briefly played host to the BEF in August 1914 Nevertheless the town acquired a special place in the hearts and minds of the BEF and the British people enhanced for many by the enduring stories of the Angel of Mons Although the Western Front became mired in static trench warfare many miles from Mons there was always a resolve on the part of the BEF that one day they would fight their way back there and liberate the town This was finally achieved on the last night of the war only hours before the Armistice ended it The year 2008 sees the 90th anniversary of the liberation of Mons To mark this milestone the book describes the arrival of the BEF in Mons in 1914 the Battle of Mons itself the Retreat from Mons the Battle of Le Cateau and the background to the Angel of Mons stories It also describes events on the Western Front through to the German spring offensives of 1918 During more than four years of German occupation the people of Mons suffered privation near starvation deportations and executions These are described drawing heavily on unpublished local sources The Allied 100 Days Campaign is then outlined culminating in the liberation of the town The last chapter brings the story of Mons and of the main wartime players up to date Finally two appendices describe the military and political developments which brought the BEF to Mons on that fateful weekend in August 1914

Mons 1914 Jack Horsfall, Nigel Cave, 1999-04-01 From military historian Jack Horsfall *Mons 1914* explores the tactics and actions behind this significant World War I battle that ended in Allied defeat August 1914 The British Expeditionary Force's BEF II Corps was stationed in the mining town of Mons Belgium in preparation for an Allied offensive against German forces conducted with French military Located less than twenty miles from Waterloo the battle site that brought an end to the Napoleonic Wars a century

earlier Mons also became a noteworthy battleground From August 23 24 General Sir Horace Smith Dorrien s infantry division outnumbered and outgunned by the German First Army under the command of Generaloberst Alexander von Kluck defended themselves against an attack With dwindling food water and other crucial supplies the BEF held off the German advancement until their enemy s superior numbers drove them out of Mons Despite defeat the BEF succeeded in inflicting heavy casualties on the German army Mons 1914 reveals the true story behind the heroic stand and sacrifices made by the British military against incredible odds in one of the first major skirmishes of World War I Mons John

Terraine,2000-01-17 Twice in the 20th century a British Expeditionary Force has taken the field in Northern France to fight beside the French Army Twice the Expeditionary Force has survived threat of complete destruction But the differences between the Retreat to Dunkirk in 1940 and the first encounter with the enemy at Mons in 1914 are significant **The**

Zuber,2011-11-08 Conventional histories of the Battles of Mons and Le Cateau describe how although the British were massively outnumbered precise and rapid rifle fire mowed down rows of German troops the staggering casualties inflicted made both British victories and set the stage for the Battle of the Marne But neither encounter has ever been described in English from the German point of view Using German tactics manuals and regimental histories Terence Zuber re examines the battles at Mons and Le Cateau subjecting British tactics to a critique that goes beyond admiration for rapid rifle fire and presenting new and startling perspectives showing how the Germans employed a high degree of tactical sophistication in conducting combined arms operations The odds were in fact even and German casualties never reached the levels described in the standard histories The Mons Myth is the first history of these battles to take this approach in ninety years and completely changes our understanding of what actually happened *The Monthly Army List* Great Britain.
