WYATT RUSSELL

A large, stylized illustration of the main cast of the show. In the foreground, a young man (Wyatt Russell) looks towards the left. Behind him, a woman (Ming-Na Wen) and a man (Kurt Russell) look upwards. In the background, a group of smaller figures, including a young boy (Owen Campbell) and a young girl (Mia Talerico), also look upwards. The background is a dramatic, green-tinted scene of a city skyline with a bridge, possibly the Golden Gate Bridge, and a large, stylized green dragon-like creature breathing fire or smoke. The overall aesthetic is a mix of science fiction and fantasy.

Monsters Legacy:

The Clock Of The Long Now Stewart Brand,2008-08-01 Using the designing and building of the Clock of the Long Now as a framework this is a book about the practical use of long time perspective how to get it how to use it how to keep it in and out of sight Here are the central questions it inspires How do we make long term thinking automatic and common instead of difficult and rare Discipline in thought allows freedom One needs the space and reliability to predict continuity to have the confidence not to be afraid of revolutions Taking the time to think of the future is more essential now than ever as culture accelerates beyond its ability to be measured Probable things are vastly outnumbered by countless near impossible eventualities Reality is statistically forced to be extraordinary fiction is not allowed this freedom This is a potent book that combines the chronicling of fantastic technology with equally visionary philosophical inquiry

Hosted Horror on Television Bruce Markusen,2021-07-27 In October 1957 Screen Gems made numerous horror movies available to local television stations around the country as part of a package of films called Shock Theater These movies became a huge sensation with TV viewers as did the horror hosts who introduced the films and offered insight often humorous into the plots the actors and the directors This history of hosted horror walks readers through the best TV horror films beginning with the 1930s black and white classics from Universal Studios and ending with the grislier color films of the early 1970s It also covers and explores the horror hosts who presented them some of whom faded into obscurity while others became iconic within the genre

Merchants of Menace Richard Nowell,2014-04-10 Anglophone horror films are typically approached as the inevitable by products of psychological and social demons haunting filmmakers and their homelands in short as if they were our collective nightmares These reflectionist approaches have led horror films routinely and reductively to be framed as mouthpieces for misogynistic sadists lurking in the shadows of the exploitation sector as defiant expressions of resistance enacted by noble progressives or as platforms for the politically reactionary evils of the biggest scariest monster of all Hollywood The industry logic strategies and practices that heavily determine horror film content the nature of horror film production promotion and dissemination as well as the responses to these activities have therefore been either side stepped completely or reduced unhelpfully to the profit making motives underwriting all capitalist endeavours Consequently even though horror has been a key component of media output for almost a century the genre s industrial character remains under explored and poorly understood

EDITOR **Ghidorah, the Three-Headed Monster** Christopher Stewardson,2025-04-08 Released ten years after the original 1954 Godzilla Ghidorah the Three Headed Monster marked a palpable change and new direction for Toho s famous film franchise Godzilla took on a friendlier personality as a defender of Japan a characterisation that would carry the monster throughout the rest of the original series The film also consolidated narrative continuity between the Godzilla series and Toho s other special effects films developing recurrent themes in the process Importantly it introduced one of Toho s most famous creations King Ghidorah Situated in a context that foregrounds Japan s post war

history and its curated images of recovery stability and affluence Ghidorah the Three Headed Monster can be seen as reflective of such narratives In 1954 Godzilla stood as an embodiment of wartime devastation haunting a post war Tokyo in 1964 an anthropomorphised Godzilla teamed up with Rodan and Mothra to defend Japan from the alien King Ghidorah These contrasts and changes across tone and character evoke the historical processes that were taking place in post war Japan the narratives of which were carefully constructed and exported in highly visible and charged events like the 1964 Tokyo Olympics This volume in the Constellations series offers a history of the film s production a consideration of its place in Toho s special effects filmography an interpretation of its social reflections within historical contexts an examination of its legacy and an inspection of its localised US release
