More Time For Sex:

Sex and Civilization Paul Bousfield,1928 **Fathers and Mothers: Dilemmas of the Work-Life Balance** Margret Fine-Davis, Jeanne Fagnani, Dino Giovannini, Lis Højgaard, Hilary Clarke, 2004-03-03 At the risk of sounding frivolous there is a good case to be made for the argument that women constitute the revolutionary force behind contemporary social and economic transformation It is in large part the changing role of women that explains the new household structure our altered demographic behaviour the growth of the service economy and as a consequence the new dilemmas that the advanced societies face Most European countries have failed to adapt adequately to the novel challenges and the result is an increasingly serious disequilibrium Women explicitly desire economic independence and the societal collective too needs to maximise female employment And yet this runs up against severe incompatibility problems that then result in very low birth rates Our aging societies need more kids yet fertility levels are often only half of what citizens define as their desired number of children No matter what happens in the next decade we are doomed to have exceedingly small cohorts that in turn must shoulder the massive burden of supporting a retired baby boom generation Hence it is tantamount that tomorrow's adults be maximally productive and yet the typical EU member state invests very little in its children and families *Social Development* Alison Clarke-Stewart, Ross D. Parke, 2014-01-21 Social Development 2nd Edition provides psychologists with a comprehensive scholarly engaging and up to date treatment of theoretical insights and empirical findings in the field of social development It conveys the excitement of recent advances along with the accumulated knowledge that forms the basis of the field Psychologists will gain a better understanding of cultural variation both among societies around the world and within our own society
