It offers extensive translations of original mythological sources as well as comparative and interpretive approaches to the myths. In this package, Classical Mythology 6/e is bundled with the Oxford World's Classic Metamorphoses. Metamorphoses, the best known poem by one of the wittiest poets of classical antiquity, takes as its theme change and transformation, as illustrated by Greco-Roman myth and legend. Melville's new translation reproduces the grace and fluency of Ovid's style and its modern idiom offers a fresh understanding of Ovid's unique and elusive vision of reality.

Morford and Lenardon's best selling introduction to classical mythology is a comprehensive survey focusing on the literary tradition of Greek and Roman mythology. It offers extensive translations of original mythological sources as well as comparative and interpretive approaches to the myths. In this package, Classical Mythology 6/e is bundled with the Oxford World's Classic Jason and the Golden Fleece. The Argonautica. The Argonautica is the dramatic story of Jason's quest for the Golden Fleece and his relations with the dangerous princess Medea. The only surviving Greek epic to bridge the gap between Homer and late antiquity, this epic poem is the crowning literary achievement of the Ptolemaic court at Alexandria. Written by Apollonius of Rhodes in the third century BC, Apollonius explores many of the fundamental aspects of life: love, deceit, heroism, human ignorance of the divine, and the limits of science in a highly original way, offering a gripping and sometimes disturbing tale in the process.

Lenardon, Euripides, Edith Euripides Hall, 2002-01-24 Morford and Lenardon's best selling introduction to classical mythology is a comprehensive survey focusing on the literary tradition of Greek and Roman mythology. It offers extensive translations of original mythological sources as well as comparative and interpretive approaches to the myths. In this package Classical Mythology 6e is bundled with the Oxford World's Classic Medea and Other Plays. Euripides was one of the most popular and controversial of all Greek tragedians and his plays are marked by an independence of thought, ingenious dramatic devices and a subtle variety of register and mood. He is also remarkable for the prominence he gave to female characters whether heroines of virtue or vice. This new translation does full justice to Euripides's range of tone and gift of narrative. A lucid introduction provides substantial analysis of each play complete with vital explanations of the traditions and background to Euripides's world. Contains Medea, Hippolytus, Electra, Helen.
