Morgesons And Other Writings Published And Unpublished:

"The Morgesons" and Other Writings, Published and Unpublished Elizabeth Stoddard, 1984 Stoddard was next to Melville and Hawthorne the most strikingly original voice in the mid nineteenth century American novel a voice that ought to gain a more sympathetic and perceptive hearing in our time than in her own from the Introduction The centerpiece of this volume is *The Morgesons* 1862 one of the few outstanding feminist bildungsromane of that century Additional selections include arresting short stories and provocative journalistic essays reviews plus a number of letters and manuscript journals that have never before been published The texts are fully edited and documented *A New England Cassandra* Anne-Marie Ford, 2014-10-30 An exploration of the works of Elizabeth Stoddard an iconoclastic writer whose literary output in mid nineteenth century America affirms her as a significant and controversial voice for her time **Writing for Immortality** Anne E. Boyd, 2010-01-01 Before the Civil War American writers such as Catharine Maria Sedgwick and Harriet Beecher Stowe had established authorship as a respectable profession for women But though they had written some of the most popular and influential novels of the century they accepted the taboo against female writers regarding themselves as educators and businesswomen During and after the Civil War some women writers began to challenge this view seeing themselves as artists writing for themselves and for posterity *Writing for Immortality* studies the lives and works of four prominent members of the first generation of American women who strived for recognition as serious literary artists Louisa May Alcott Elizabeth Stuart Phelps Elizabeth Stoddard and Constance Fenimore Woolson Combining literary criticism and cultural history Anne E Boyd examines how these authors negotiated the masculine connotation of artist imagining a space for themselves in the literary pantheon Redrawing the boundaries between male and female literary spheres and between American and British literary traditions Boyd shows how these writers rejected the didacticism of the previous generation of women writers and instead drew their inspiration from the most prominent literary writers of their day Emerson James Barrett Browning and Eliot Placing the works and experiences of Alcott Phelps Stoddard and Woolson within contemporary discussions about genius and the American artist Boyd reaches a sobering conclusion Although these women were encouraged by the democratic ideals implicit in such concepts they were equally discouraged by lingering prejudices about their applicability to women **American Culture, Canons, and the Case of Elizabeth Stoddard** Robert McClure Smith, Ellen Weinauer, 2014-09-30 Reconsiders the centrality of a remarkable American writer of the ante and postbellum periods Elizabeth Stoddard was a gifted writer of fiction poetry and journalism successfully published within her own lifetime esteemed by such writers as William Dean Howells and Nathaniel Hawthorne and situated at the epicenter of New York's literary world Nonetheless she has been almost excluded from literary memory and importance This book seeks to understand why By reconsidering Stoddard's life and work and her current marginal status in the evolving canon of American literary studies it raises important questions about women's writing in the 19th century and canon formation in the

20th century Essays in this study locate Stoddard in the context of her contemporaries such as Dickinson and Hawthorne while others situate her work in the context of major 19th century cultural forces and issues among them the Civil War and Reconstruction race and ethnicity anorexia and female invalidism nationalism and localism and incest One essay examines the development of Stoddard's work in the light of her biography and others probe her stylistic and philosophic originality the journalistic roots of her voice and the elliptical themes of her short fiction Stoddard's lifelong project to articulate the nature and dynamics of woman's subjectivity her challenging treatment of female appetite and will and her depiction of the complex and often ambivalent relationships that white middle class women had to their domestic spaces are also thoughtfully considered The editors argue that the neglect of Elizabeth Stoddard's contribution to American literature is a compelling example of the contingency of critical values and the instability of literary history This study asks the question Will Stoddard endure Will she continue to drift into oblivion or will a new generation of readers and critics secure her tenuous legacy "I

Believe I Shall Die an Impenetrable Secret" Regula Giovani, 2003 Elizabeth Barstow Stoddard 1823 1902 is an American writer who was encouraged by Longfellow praised by Hawthorne and Howells and who occasioned an uncharacteristically angry outburst by Henry James Her three novels *The Morgesons* *Two Men* and *Temple House* were well reviewed but did not sell went out of print after her death and were forgotten until 1968 Since that time her value has been gradually recognized and there is a growing body of criticism of her work This book is the first full length critical study of all of Stoddard's work and the first to give full value to her largely unknown and often neglected series of articles published in the newspaper *The Daily Alta California* 1854-58 The *Daily Alta California* articles serve as a basis for the analysis of Stoddard's character and thought The chapters on her novels trace her development from a reader friendly columnist who informed amused and flattered her audience to a novelist whose books are marked by a savage violence a violence that takes a different form in each novel and represents Stoddard's most distinct characteristic
