Natasha's Dance Orlando Figes, 2014-02-11 History on a grand scale an enchanting masterpiece that explores the making of one of the world's most vibrant civilizations A People's Tragedy wrote Eric Hobsbawm did more to help us understand the Russian Revolution than any other book I know Now in Natasha's Dance internationally renowned historian Orlando Figes does the same for Russian culture summoning the myriad elements that formed a nation and held it together Beginning in the eighteenth century with the building of St Petersburg a window on the West and culminating with the challenges posed to Russian identity by the Soviet regime Figes examines how writers artists and musicians grappled with the idea of Russia itself its character spiritual essence and destiny He skillfully interweaves the great works by Dostoevsky Stravinsky and Chagall with folk embroidery peasant songs religious icons and all the customs of daily life from food and drink to bathing habits to beliefs about the spirit world Figes's characters range high and low the revered Tolstoy who left his deathbed to search for the Kingdom of God as well as the serf girl Praskovya who became Russian opera's first superstar and shocked society by becoming her owner's wife Like the European schooled countess Natasha performing an impromptu folk dance in Tolstoy's *War and Peace* the spirit of Russianness is revealed by Figes as rich and uplifting complex and contradictory a powerful force that unified a vast country and proved more lasting than any Russian ruler or state The Russian Empire 1450-1801 Nancy Shields Kollmann, 2017 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450-1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450-1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures The Future of Nostalgia Svetlana

Boym,2008-08-05 Can one be nostalgic for the home one never had Why is it that the age of globalization is accompanied by a no less global epidemic of nostalgia Can we know what we are nostalgic for In the seventeenth century Swiss doctors believed that opium leeches and a trek through the Alps would cure nostalgia In 1733 a Russian commander disgusted with the debilitating homesickness rampant among his troops buried a soldier alive as a deterrent to nostalgia In her new book Svetlana Boym develops a comprehensive approach to this elusive ailment Combining personal memoir philosophical essay and historical analysis Boym explores the spaces of collective nostalgia that connect national biography and personal self fashioning in the twenty first century She guides us through the ruins and construction sites of post communist cities St Petersburg Moscow Berlin and Prague and the imagined homelands of exiles Benjamin Nabokov Mandelstam and Brodsky From Jurassic Park to the Totalitarian Sculpture Garden from love letters on Kafka s grave to conversations with Hitler s impersonator Boym unravels the threads of this global epidemic of longing and its antidotes [Federal Register](#) ,1946-04
