Mosul before Iraq Sarah D. Shields, 2000-06-22 Using original source documents this book portrays nineteenth century Mosul a large city currently in Iraq's no fly zone

A Documentary History of Modern Iraq Stacy E. Holden, 2012-07-08 Previously published histories and primary source collections on the Iraqi experience tend to be topically focused or dedicated to presenting a top down approach By contrast Stacy Holden's *A Documentary History of Modern Iraq* gives voice to ordinary Iraqis clarifying the experience of the Shiites Sunnis Kurds Jews and women over the past century Through varied documents ranging from short stories to treaties political speeches to memoirs and newspaper articles to book excerpts the work synthesizes previously marginalized perspectives of minorities and women with the voices of the political elite to provide an integrated picture of political change from the Ottoman Empire in 1903 to the end of the second Bush administration in 2008 Covering a broad range of topics this bottom up approach allows readers to fully immerse themselves in the lives of everyday Iraqis as they navigate regime shifts from the British to the Hashemite monarchy the political upheaval of the Persian Gulf wars and beyond Brief introductions to each excerpt provide context and suggest questions for classroom discussion This collection offers raw history untainted and unfiltered by modern political framework and thought representing a refreshing new approach to the study of Iraq

*Educational Oases in the Desert* Jonathan Sciarcon, 2017-01-01 A history of the French schools that pioneered female education in Ottoman Iraq's Jewish communities During the late nineteenth and early twentieth centuries the Alliance Israélite Universelle AIU a Paris based Jewish organization founded dozens of primary schools throughout the Middle East Many were the first formal educational institutions for local Jewish children In addition to providing secular education the schools attempted to change local customs and regenerate or uplift communities *Educational Oases in the Desert* explores the largely forgotten history of the AIU's schools for girls in Ottoman Iraq Drawing on extensive archival research Jonathan Sciarcon argues that teachers viewed female education through a gendered lens linked to their understanding of an ideal modern society As the primary educators of children women were seen as society's key agents of socialization The AIU thus concluded that its boys schools would never succeed in creating polished westernized men so long as women remained uneducated leading to the creation of schools for girls Sciarcon shows how headmistresses acted not just as educators but also as models of modernity trying to impart new moral and aesthetic norms onto students

The Routledge Handbook of the History of the Middle East Mandates Cyrus Schayegh, Andrew Arsan, 2015-06-05 *The Routledge Handbook of the History of the Middle East Mandates* provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The

impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history      *State and Society in Iraq* Benjamin Isakhan, Shamiran Mako, Fadi Dawood, 2017-03-17 The activities of ISIS since 2014 have brought back to centre stage a series of very old and very troubling questions about the integrity and viability of the Iraqi state However most analysts have framed recent events in terms of their immediate past and without the contextual background to explain their evolution *State and Society in Iraq* moves beyond a short sighted analysis to place the complex and contested nature of Iraqi politics within a broader and deeper historical examination In doing so the chapters demonstrate that beyond the overwhelming emphasis on failed occupations cruel tyrants ethnic separatists and violent religious fanatics is an Iraqi people who have routinely agitated against the state advocated for legitimate and accountable government and called for inter communal harmony When the authors maintain the Iraqi people are given agency in the complex process of consent negotiation and resistance that underpin successful state society relations the nation can move beyond patterns of oppression and cruelty of dangerous rhetoric and divisive politics and towards a cohesive peaceful and prosperous future despite the many difficulties and the steep challenges that lie ahead

*The Nineteenth Century and After* ,1926      **Break all the Borders** Ariel I. Ahram, 2019-01-09 Since 2011 civil wars and state failure have beset the Arab world underlying the misalignment between national borders and identity in the region This book offers a unique and detailed account of the separatist movements that aim to remake those borders the southern movement in Yemen the federalists in eastern Libya the Kurdish nationalists in Syria and Iraq and the Islamic State in Iraq and Syria ISIS Instead of focusing on incumbent states the book shows how separatists claim the mantle of self determination and seek to replace a broken regional order with more legitimate and stabile polities      *The Twentieth Century* ,1926
