Mastering the Ultimate High Ground: Next Steps in the Military Uses of Space

Benjamin S. Lambeth,1999-04-19 Assesses the military space challenges facing the Air Force and the nation in light of the findings and recommendations of the Space Commission The author reviews the Air Force s involvement in space since its creation as an independent service in 1947 examines the circumstances that occasioned the commission s creation and the conceptual and organizational roadblocks that have impeded a more rapid growth of U S military space capability and enumerates the challenges facing the Air Force with respect to space

The Science Fiction Handbook Nick Hubble,Aris Mousoutzanis,2013-11-28 As we move through the 21st century the importance of science fiction to the study of English Literature is becoming increasingly apparent The Science Fiction Handbook provides a comprehensive guide to the genre and how to study it for students new to the field In particular it provides detailed entries on major writers in the SF field who might be encountered on university level English Literature courses ranging from H G Wells and Philip K Dick to Doris Lessing and Geoff Ryman Other features include an historical timeline sections on key writers critics and critical terms and case studies of both literary and critical works In the later sections of the book the changing nature of the science fiction canon and its growing role in relation to the wider categories of English Literature are discussed in depth introducing the reader to the latest critical thinking on the field
