contemporary stage and explores its role as an active polemical form of theatre which addresses present day issues The book's premise is that by breaking drama into constituent parts revising reinterpreting and rewriting to create a new culturally and politically relevant construct the process of adaptation creates a hyperplay newly repurposed for the contemporary world This process is explored through a diverse collection of postmodern adaptations of Antigone Medea and The Trojan Women analysing their adaptive strategies and the evidence of how these remakings reflect the cultures of which they are a part Central to this study is the idea that each of these adaptations becomes an entirely new play redefining its central female figures and invoking reconfigurations of femininity which emphasise individual women's strengths and female solidarity Written for scholars of Theatre Adaptation Performance Studies and Literature Hypertheatre places the Greek classics firmly within a contemporary feminist discourse

The Oxford Handbook of Greek Drama in the Americas Kathryn Boshier, Fiona Macintosh, Justine McConnell, Patrice Rankine, 2015-11-05 The Oxford Handbook of Greek Drama in the Americas is the first edited collection to discuss the performance of Greek drama across the continents and archipelagos of the Americas from the beginning of the nineteenth century to the present The study and interpretation of the classics have never been restricted by geographical or linguistic boundaries but in the case of the Americas long colonial histories have often imposed such boundaries arbitrarily This volume tracks networks across continents and oceans and uncovers the ways in which the shared histories and practices in the performance arts in the Americas have routinely defied national boundaries With contributions from classicists Latin American specialists theatre and performance theorists and historians the Handbook also includes interviews with key writers including Nobel Laureate Derek Walcott Charles Mee and Anne Carson and leading theatre directors such as Peter Sellars Carey Perloff Hector Daniel Levy and Heron Coelho This richly illustrated volume seeks to define the complex contours of the reception of Greek drama in the Americas and to articulate how these different engagements at local national or trans continental levels as well as across borders have been distinct both from each other and from those of Europe and Asia
