Font adjustments, biography included. Unabridged 100% Original content. Illustrated About Essays of Montaigne Volume 3 by Michel de Montaigne. The Essays of Michel de Montaigne are contained in three books and 107 chapters of varying length. Montaigne's stated design in writing, publishing and revising the Essays over the period from approximately 1570 to 1592 was to record some traits of my character and of my humours. The Essays were first published in 1580 and cover a wide range of topics. Montaigne's stated goal in his book is to describe man and especially himself with utter frankness and honesty. *bonne foi* He finds the great variety and volatility of human nature to be its most basic features which resonates to the Renaissance thought about the fragility of humans. According to the scholar Paul Oskar Kristeller the writers of the period were keenly aware of the miseries and ills of our earthly existence. A representative quote is I have never seen a greater monster or miracle than myself. He

opposed European colonization of the Americas deplored the suffering it brought upon the natives Citing the case of Martin Guerre as an example he believes that humans cannot attain certainty His skepticism is best expressed in the long essay An Apology for Raymond Sebond Book 2 Chapter 12 which has frequently been published separately We cannot trust our reasoning because thoughts just occur to us we don't truly control them We do not have good reasons to consider ourselves superior to the animals He is highly skeptical of confessions obtained under torture pointing out that such confessions can be made up by the suspect just to escape the torture he is subjected to In the middle of the section normally entitled Man's Knowledge Cannot Make Him Good he wrote that his motto was What do I know The essay on Sebond defended Christianity Montaigne also eloquently employed many references and quotes from classical Greek and Roman i.e. non Christian authors especially the atomist Lucretius Montaigne considered marriage necessary for the raising of children but disliked the strong feelings of romantic love as being detrimental to freedom **The Essays of Montaigne** Michel De Montaigne,2008-05-01
