**Mortal Fear** Gene Walden, **Philosophical Foundation of Human Rights** Paul Tiedemann, 2020-06-27 This textbook presents a range of classical philosophical approaches in order to show that they are unsuitable as a foundation for human rights Only the conception of human dignity based on the Kantian distinction between price and dignity can provide a sufficient basis The derivation of human rights from the principle of human dignity allows us to identify the most crucial characteristic of human rights namely the protection of personhood This in turn makes it possible 1 to distinguish between real moral human rights and spurious ones 2 to assess the scope of protection for many codified human rights according to the criteria of core and yard and 3 offers a point of departure for creating new unwritten human rights This philosophical basis supports a substantial reassessment of the case law on human rights which will ultimately allow us to improve it with regard to legal certainty clarity and cogency The textbook is primarily intended for advanced law students who are interested in a deeper understanding of human rights It is also suitable for humanities students and for anyone in the political or social arena whose work involves human rights and their enforcement Each chapter is divided into four parts Abstracts Lecture Recommended Reading and Questions to check reader

comprehension Sample answers are included at the end of the book      Robin Cook Lorena Laura Stookey,1996-09-24 Like Arthur Conan Doyle before him best selling novelist Robin Cook has turned from the practice of medicine to that of writing popular suspense fiction Widely recognized as the Master of the Medical Thriller Cook uses the medium of the popular novel to address a range of social issues environmental pollution gender inequality in the workplace the risks inherent in the common practice of secrecy in science research and above all the ramifications of medicine s transition from profession to corporate industry This study analyzes in turn each of Cook s medical thrillers from *Coma* to *Contagion* Following a biographical chapter the genre chapter examines the ways in which Cook s medical thriller incorporates plotting conventions and strategies borrowed from such popular literary genres as the science fiction novel the murder mystery and the gothic romance Each novel is then examined in a separate chapter with subsections on plot character and theme Stookey also offers an alternative critical approach to the novel which gives the reader another perspective from which to read and discuss the text A complete bibliography of Cook s fiction general criticism and biographical sources and listings of reviews of each novel complete the work The only study of one of America s most popular contemporary novelists read by adults and young adults alike this is a key purchase for schools and public libraries      *Theology from the Psalms* C. Hassell Bullock,2023-10-17 Hassell Bullock has studied taught and written successful texts on the Psalms for forty years In this book he walks through how the Psalms convey the grand story of creation and redemption Scripture s two theological ends and the underlying story of God and humanity in relationship Bullock explains how the literal and metaphorical language in the Psalms work together to articulate the message and deepen our understanding He presents interpretive principles gleaned from the psalmists themselves and shows how these writers make intertextual connections to other Scriptures sometimes quoting but mostly alluding which can help us make corresponding connections between Old and New Testament teachings The Psalms are examples of applying wisdom and Scriptures to personal and national issues and of how God interacts and intervenes in real life situations which help us apply the Bible today Bullock s mature reflections and guidance on understanding and applying the Psalms theological message will complement any traditional introduction to the Psalms      Foregone Verses William Wallace Whitelock,1907      **Abuse, Power and Fearful Obedience** Jennifer G. Bird,2013-05-01 Jennifer G Bird analyzes the construction of wives subjectivity in 1 Peter working primarily with what is referred to as the Haustafel household code section and engaging feminist critical questions postcolonial theory and materialist theory in her analysis Bird examines the two crucial labels for understanding Petrine Christian identity aliens and refugees and royal priesthood and holy nation And finds them to stand in stark contrast with the commands and identity given to wives in the Haustafel section Similarly the command to honour the Emperor which immediately precedes the Haustafel engenders a rich discussion of the text s socio political implications The critical engagement of several symptomatic irruptions within the commands to the wives uncovers the abusive dynamic underlying this section of the letter Finally Bird considers the present day implications of her study
