Episcopalianism in Nineteenth-Century Scotland Rowan Strong, 2002-03-21 Rowan Strong examines the history of Scottish Episcopalianism in the nineteenth century as a response to the new urbanizing and industrializing society of the time. In particular, he looks at the various Episcopalian subcultures which had to come to terms with these social and economic changes. These subcultures include Highland Gaels, North East crofters, farmers and fisherfolk, urban Episcopalians, aristocratic Episcopalians and Evangelicals, and Anglo Catholics. He provides also an outline of the history of Episcopalianism in Scotland from the sixteenth century to 1900. Rowan Strong addresses the issue of Episcopalianism and Scottish identity which is topical today.

Clearance and Improvement Tom M. Devine, 2010-02-01 Social and economic changes included an increase in production of food and raw materials in turn sustaining the remarkable growth of towns and cities over this period. However, in the folk memory of Scotland, the social and cultural costs of the revolution loom much larger: the loss of land for many thousands of families, the rise of individualism and the decline of neighborhood, the death of old rural societies which had formed Scotland's character for many generations. The drama and tragedy of Highland history during this period have attracted many authors, whereas the Lowland experience that of the majority of Scots hardly any. This book attempts to redress that balance and in so doing examines why this extraordinary era, inextricably associated with failure, famine and clearance in Gaeldom, is remembered as one of improvements in the Lowlands where the folk memory of dispossession, if it ever existed, is long lost in collective amnesia. In so doing, Devine addresses an issue which goes right to the heart of the nation's past.

Pabay Christopher Whatley, 2019-09-18 An island history almost without comparison, one of the finest Highland books of the 21st century from the renowned Scottish historian. West Highland Free Press. The tiny diamond-shaped island of Pabay lies in Skye's Inner Sound, just two and a half miles from the bustling village of Broadford. One of five Hebridean islands of that name, it derives from the Norse *papa ey* meaning island of the priest. Many visitors since the first holy men built their chapel there have felt that Pabay is a deeply spiritual place and one of wonder. These include the great 19th-century geologists Hugh Miller and Archibald Geikie, for whom the island's rocks and fossil-laden shales revealed much about the nature of Creation itself. Len and Margaret Whatley moved to Pabay from the Midlands and lived there from 1950 until 1970. Leaving a landlocked life in Birmingham for the emptiness of an uninhabited island was a brave and challenging move for which nothing could have prepared them. Christopher Whatley, their nephew, was a regular visitor to Pabay whilst they lived there. In this book, based on archival research, oral interviews, memory and personal experience, he explores the history of this tiny island jewel and the people for whom it has been home, to create a vivid picture of the trials, tribulations and joys of island life. If the island itself is a diamond, this work is a sparkling gem. The Press and Journal. Beautifully written and presents a richly detailed and fascinating historical narrative. It's as much a testimony to how people have shaped the island and how the island has shaped them. Dundee Courier.
