## **Moskovskaia Saga Rubian Language Edition:**

**Locating Exiled Writers in Contemporary Russian Literature** L. Wakamiya, 2009-12-21 This innovative study examines the work of exiles from the Soviet Union who returned to a reformed post Soviet Russia to initiate narrative processes of self definition oriented toward a readership and nation seeking self identity all at a time of social political and cultural transition within Russia itself

**Russian Postmodernist Fiction** Mark Lipovetsky, Eliot Borenstein, 2016-09-16 This text offers a critical study of postmodernism in Russian literature It takes some of the central issues of the critical debate to develop a conception of postmodern poetics as a dialogue with chaos and places Russian literature in the context of an enriched postmodernism

**Russian Life**, 2009

**Television and Culture in Putin's Russia** Stephen Hutchings, Natalia Rulyova, 2009-06-02 This book examines television culture in Russia under the government of Vladimir Putin In recent years the growing influx into Russian television of globally mediated genres and formats has coincided with a decline in media freedom and a ratcheting up of government control over the content style of television programmes All three national channels First Russia NTV have fallen victim to Putin s power obsessed regime Journalists critical of his Chechnya policy have been subject to harassment and arrest programmes courting political controversy such as Savik Shuster s Freedom of Speech Svoboda slova have been taken off the air coverage of national holidays like Victory Day has witnessed a return of Soviet style bombast and reporting on crises such as the Beslan tragedy is severely curtailed The book demonstrates how broadcasters have been enlisted in support of a transparent effort to install a latter day version of imperial pride in Russian military achievements at the centre of a national identity project over which from the depths of the Kremlin Putin s government exerts a form of remote control However central to the book s argument is the notion that because of the changes wrought upon Russian society after 1985 a blanket return to the totalitarianism of the Soviet media has notwithstanding the tenor of much western reporting on the issue not occurred Despite the fact that television is nominally under state control that control remains remote and less than wholly effective as amply demonstrated in the audience research conducted for the book and in analysis of contradictions at the textual level Overall this book provides a fascinating account of the role of television under President Putin and will be of interest to all those wishing to understand contemporary Russian society

**Russian Prose Writers After World War II** Christine Rydel, 2005 Whether the writers in this period described the war the Great Terror the gulag experience exile repression or simply everyday life in the city or in the country they generally turned to a major theme of Russian literature since the Revolution the fate of the individual human being in a mass state In the literature often the state won due to its power at other times individuals triumphed because of their moral convictions The same can be said of these writers
