dictatorial military state This book is a translation with expanded material for English language readers of Maud Chirio's original Portuguese language work *A política nos quartéis: Revoltas e protestos de oficiais na ditadura militar brasileira* which was awarded the Thomas E Skidmore Prize by the Brazilian National Archives and Brazilian Studies Association

América Robert Goodwin, 2019-03-05 An epic history of the Spanish empire in North America from 1493 to 1898 by Robert Goodwin author of *Spain: The Centre of the World* At the conclusion of the American Revolution half the modern United States was part of the vast Spanish Empire The year after Columbus's great voyage of discovery in 1492 he claimed Puerto Rico and the Virgin Islands for Spain For the next three hundred years thousands of proud Spanish conquistadors and their largely forgotten Mexican allies went in search of glory and riches from Florida to California Many died few triumphed Some were cruel some were curious some were kind Missionaries and priests yearned to harvest Indian souls for God through baptism and Christian teaching Theirs was a frontier world which Spain struggled to control in the face of Indian resistance and competition from France Britain and finally the United States In the 1800s Spain lost it all Goodwin tells this history through the lives of the people who made it happen and the literature and art with which they celebrated their successes and mourned their failures He weaves an epic tapestry from these intimate biographies of explorers and conquerors like Columbus and Coronado but also lesser known characters like the powerful G lvez family who gave invaluable and largely forgotten support to the American Patriots during the Revolutionary War the great Pueblo leader Popay and Esteban the first documented African American Like characters in a great play or a novel Goodwin's protagonists walk the stage of history with heroism and brio and much tragedy

Brazilian Cultural Criminology Salah H. Khaled Jr., 2026-01-01 This book identifies an emerging Brazilian cultural criminology which combines Brazilian and Latin American critical criminology with the new avenues of investigation and methodologies that characterize cultural criminology more broadly Bringing together various perspectives it offers a new take on cultural criminology which demonstrates its international scope and innovative approaches to explore the specific problems of Brazil

s peripheral reality It offers a window into past and present Brazil discussing themes of colonialism slavery genocide eugenics police lethality mass imprisonment urban groups Bolsonarism youth gangs mediated representation and the pandemic The joint work of criminologists from Brazil constitutes a new facet of Brazilian critical criminology and a new facet of cultural criminology itself Bound by their common political identity these fields continue to develop and spiral together challenging accepted notions of locality and reinventing academic and everyday forms of resistance in different arenas of the Global South and Global North This book demonstrates that the reception and incorporation of methodologies and ideas from cultural criminology into Brazilian critical criminology do not reveal a simple reproduction but rather that Brazilian criminologists continue to reinvent and contest from the margins the very cultural criminology of the Global North from which they were inspired to refine and expand the accumulated critical knowledge positioned against administrative criminology The translation of this book was done with the help of artificial intelligence A subsequent human revision was done for language and content
