Materializing Art History:

Anthropology and the Individual Daniel Miller, 2009-12-15 This study demonstrates how methods of social analysis can be applied to the individual while remaining entirely distinct from psychology and other perspectives on the person

Culture and Authenticity Magdalena Craciun, 2020-05-26 The study of material culture demonstrates that objects make people just as much as people make exchange and consume objects. But what if these objects are in the eyes of others only fakes? What kind of material mirror are people looking into? Are their real selves really reflected in this mirror? This book provides an original and revealing study into engagements with objects that are not what they are claimed and presumed to be and subsequently are believed to betray their makers as well as users. Drawing upon an ethnography of fake branded garments in Turkey and Romania, *Material Culture and Authenticity* shows how people can make authentic positions for themselves in and through fake objects. The book will be of interest to students and scholars working in the fields of anthropology, material culture and cultural studies, as well as to general readers interested in ethnographic alternatives to biographies of famous fakers and fakes.

Ibss: Anthropology: 1999 Compiled by the British Library of Political and Economic Science, 2000-12-07 IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences.

The Orient Strikes Back Joy Hendry, 2020-06-07 At the turn of the 20th Century Japanese villages and their exotic occupants delighted and mystified visitors to the Great Exhibitions and Worlds Fairs. At the beginning of the 21st Century Japanese tourists have reversed the gaze and now may visit a range of European countries as well as several other cultural worlds without ever leaving the shores of Japan. This book suggests that these and other exciting Asian theme parks pose a challenge to Western notions of leisure, education and entertainment. Is this a case of reverse orientalism? Or is it simply a commercial follow up on the success of Tokyo Disneyland? Is it an appropriation by one rich nation of a whole world of cultural delights from the countries that have influenced its twentieth century success? Can the parks be seen as political statements about the heritage on which Japan now draws so freely? Or are they new forms of ethnographic museum? Examining Japanese parks in the context of a variety of historical examples of cultural display in Europe, the US and Australia as well as other Asian examples, the author calls into question the too easy adoption of postmodern theory as an ethnocentrically Western phenomenon and clearly shows that Japan has given theme parks an entirely new mode of interpretation.

1998 Massimo Mastrogregori, 2013-05-08 Annually published since 1930 the International bibliography of Historical Sciences IBOHS is an international bibliography of the most important historical monographs and periodical articles published throughout the world which deal with history from the earliest to the most recent times. The works are

Evans,2014-10-23

In recent years food waste has risen to the top of the political and public agenda yet until now there has been no scholarly analysis applied to the topic as a complement and counter balance to campaigning and activist approaches Using ethnographic material to explore global issues Food Waste unearths the processes that lie behind the volume of food currently wasted by households and consumers The author demonstrates how waste arises as a consequence of households negotiating the complex and contradictory demands of everyday life explores the reasons why surplus food ends up in the bin and considers innovative solutions to the problem Drawing inspiration from studies of consumption and material culture alongside social science perspectives on everyday life and the home this lively yet scholarly book is ideal for students and researchers from a wide range of disciplines along with anyone interested in understanding the food that we waste Left History ,2001

Object Worlds in Ancient Egypt Lynn Meskell,2004-07-02 From the Valley of the Kings to Las Vegas Egypt looms large in the Western imagination So why are we intrigued by pyramids and practices of mummification Is it because the ancient Egyptians fetishized material objects And what do Egyptian remains tell us about biography embodiment memory materiality the self and indeed ourselves This book considers how excavated objects reveal ancient Egyptians experiences of their material world It also explores existential questions that not only preoccupied ancient Egyptians but continue to fascinate people today What is the essence of persons and things How might we understand the situated experiences of material life How might objects successfully mediate between worlds Meskell ultimately moves forward through time and examines the consumption of Egyptian material objects in the contemporary world including Las Vegas Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture and insights into its mysteries including our own
