The Multimedia Guide to the Non-human Primates Frances D. Burton,1995 This text references the natural history of each of the more than 200 species of non human primates The text may be used for self directed learning or as a reference for the reader Three major headingsAttributes Ecology and Social Behavior Includes fossile records food and diet communication taxonomy and social dynamics    Primates Face to Face Agustín Fuentes,Linda D. Wolfe,2002-01-17 As our closest evolutionary relatives nonhuman primates are integral elements in our mythologies diets and scientific paradigms yet most species now face an uncertain future through exploitation for the pet and bushmeat trades as well as progressive habitat loss New information about disease transmission dietary and economic linkage and the continuing international focus on conservation and primate research have created a surge of interest in primates and focus on the diverse interaction of human and nonhuman primates has become an important component in primatological and ethnographic studies By examining the diverse and fascinating range of relationships between humans and other primates and how this plays a critical role in conservation practice and programs Primates Face to Face disseminates the information gained from the anthropological study of nonhuman primates to the wider academic and non academic world
