*Multiple Criteria Analysis in Strategic Siting Problems* Oleg I. Larichev,David L. Olson,2014-01-15    [Multiple Criteria Analysis in Strategic Siting Problems](#) Oleg I. Larichev,David L. Olson,2001-05-31 The purpose of Multiple Criteria Analysis in Strategic Siting Problems is to demonstrate how multiple criteria can be used in analysis of facility location problems The book begins with an overview explains the internationally most popular multiple objective analysis methods and demonstrates their applications on real problems Siting problems reviewed include nuclear waste disposal in the U S solid waste management in Finland pipeline location in India and pipeline location in Russia Methods covered are multiattribute utility analysis analytic hierarchy process the ELECTRE outranking method and verbal decision analysis The book concludes with a comparative review of methods The book uses the multi attribute multi party framework of Kunreuther to present the decision context to include parties with interests in the decisions as well as the sequence of project events This perspective is valuable in identifying the qualitative backgrounds of siting problems that need to be considered The book demonstrates the importance of multiple criteria in hazardous facility site selection It also shows how each of the four methodologies covered operate both in terms of demonstration problems worked with numbers and how these methods have been applied in the real applications The real applications were taken from refereed journal documentation with the exception of Russian pipeline analysis decisions in which Professor Larichev participated The book is recommended for those interested in decision making involving problems with social import This includes environmental aspects as well as international aspects of decision making

*Multiple Criteria Analysis in Strategic Siting Problems* Oleg I. Larichev,David L. Olson,2013-11-11 1 Facility Location Problems The location problem has been with humans for all of their history In the past many rulers had the decision of locating their capital Reasons for selecting various locations included central location transportation benefits to foster trade and defensibility The development of industry involved location problems for production facilities and trade outlets Obvious criteria for location of business facilities included profit impact In the 19 century there seemed to be a focus on the cost of transporting raw materials versus the cost of transporting goods to consumers Location decisions were made considering all potential gains and expenses Some judgment was required because while most benefits and costs could be measured accurately not all could be Successful business practice depended on the sound judgment of the decision maker in solving location problems Each of these enterprises produced some wastes Finding a location to dispose of these wastes was not a difficult task In less enlightened times governments resorted to fiat and land condemnation to take the sites needed for disposal In the 19 century industry grew rapidly in Great Britain and elsewhere as mass production served expanding populations of consumers The by products of mass production were often simply discarded in the most expeditious manner There are still mountains in the United States Introduction 2 with artificial facades created from the excess material discarded from mining activity We have developed the ability to create waste of lethal toxicity    **Spatial Analysis of the**
