of Research on Music Teaching and Learning Richard Colwell, Music Educators National Conference (U.S.), 1992      Policy and the Political Life of Music Education Patrick Schmidt, Richard Colwell, 2017-02-01

Policy and the Political Life of Music Education is the first book of its kind in the field of Music Education. It offers a far reaching and innovative outlook bringing together expert voices who provide a multifaceted and global set of insights into a critical arena for action today: policy. On one hand, the book helps the novice to make sense of what policy is, how it functions, and how it is discussed in various parts of the world; while on the other, it offers the experienced educator a set of critically written analyses that outline the state of the play of music education policy thinking. As policy participation remains largely underexplored in music education, the book helps to clarify to teachers how policy thinking does shape educational action and directly influences the nature, extent, and impact of our programs. The goal is to help readers understand the complexities of policy and to become better skilled in how to think, speak, and act in policy terms. The book provides new ways to understand and therefore imagine policy, approximating it to the lives of educators and highlighting its importance and impact. This is an essential read for anyone interested in change and how to better understand decision making within music and education. Finally, this book, while aimed at the growth of music educators' knowledge base regarding policy, also fosters open thinking regarding policy as subject, helping educators straddling arts and education to recognize that policy thinking can offer creative designs for educational change.

*Music Deep and Wide in Older Adults* C. Victor Fung, Hiromichi Mito, 2026-01-01

The purpose of this book is to address older adults' musical group activities and their relation to quality of life in Japan, situated on a crossroad between deep Eastern cultural traditions and broad contemporary innovations and Western influences. This is the first book that offers both insider and outsider perspectives on older adults' music participation in Japan. It is the result of a collaborative effort of a team of academics in Japan led by a Fulbright researcher from the United States who resided and worked on the project in Japan for six months. The collaboration continued for a few years beyond the Fulbright residency period. The book consists of 10 chapters in three parts. The first part includes an introductory chapter that sets the stage with strong cultural traditions in the contemporary ambience for older adults' music participation. Part two contains studies of seven diverse cases jointly conducted by native Japanese researchers and a researcher with Chinese American background. The majority of the researchers received training in the UK and the US. This allows each study with built-in perspectives from within and outside of Japan and with deep Asian, Japanese, and Western insights. These case studies are set in rural areas (Kojima, Nishio, and Uonuma), mid-size cities (Miyazaki and Sendai), world-class metropolises (Nagoya and Tokyo), and suburban areas (Odaka and Seto). Three of the case studies include non-musical groups in comparison with the musical groups. Part three contains two chapters. One is a synthesis of the case studies in the seven locations, identifying the main factors that make older adults' music participation positive and impactful to their quality of life. The final chapter includes implications relevant to older adults' music participation in support of their quality of life. Recommendations can be applicable far beyond the locales of the cases.
