Nazi Mad

Science I C. L. Gammon, 2015-04-20 In this book bestselling author CL Gammon relates the high altitude experiments

conducted at Dachau Concentration Camp in 1942. The details of experiments read like scenes from some fantastic and

cheesy horror movie from the 1950's. However they are actual hideous sadistic scientific experiments performed by school

trained medical professionals in Nazi Germany. They are true examples of NAZI MAD SCIENCE.

MAD SCIENCE collects them chronologically from New Year's Day to year's end showing just how entertaining wonderful

[Women, Monstrosity and Horror Film](#)

Erin Harrington, 2017-08-10 Women occupy a privileged place in horror film. Horror is a space of entertainment and excitement of

terror and dread and one that relishes the complexities that arise when boundaries of taste of bodies of reason are blurred

and dismantled. It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the

reproductive the maternal and the sexual to expose the underpinnings of the social political and philosophical othering of

women. This book offers an in depth analysis of women in horror films through an exploration of gynaehorror films concerned

with all aspects of female reproductive horror from reproductive and sexual organs to virginity pregnancy birth motherhood

and finally to menopause. Some of the themes explored include the intersection of horror monstrosity and sexual difference

the relationships between normative female heterosexuality and the twin figures of the chaste virgin and the voracious

vagina dentata embodiment and subjectivity in horror films about pregnancy and abortion reproductive technologies

monstrosity and mad science the discursive construction and interrogation of monstrous motherhood and the relationships

between menopause menstruation hagsploitation and abject barren bodies in horror The book not only offers a feminist interrogation of gynaehorror but also a counter reading of the gynaehorrific that both accounts for and opens up new spaces of productive radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic It therefore makes a unique contribution to the study of women in horror film specifically while also providing new insights in the broader area of popular culture gender and film philosophy
