### Côte d'Ivoire

International Monetary Fund. Fiscal Affairs Dept., 2018-04-18 This Technical Assistance Report discusses the findings and

recommendations made by the IMF mission about modernizing the analysis monitoring and disclosure of fiscal risks in Côte d'Ivoire. It was found that existing practices for identifying, monitoring and disclosing fiscal risks are still limited and fall below emerging country standards. There is no centralized process at the level of the economic and financial ministries for a comprehensive identification, quantification and even less so monitoring of fiscal risks. Efforts should continue in the direction of proactive management of fiscal risks. Such management would be a determining factor in maintaining the strong economic dynamic of the Ivoirian economy. **A Poverty Analysis Macroeconomic Simulator (PAMS) Linking Household Surveys with Macro-models** Luiz A.
