Mad Magic Nicole Conway, 2020-03-24 Josie Barton is a high school student living in terror. Invisible creatures torment her everywhere she goes, constantly getting her into trouble at school and even haunting her apartment. But just when Josie thinks things couldn't get any worse, she meets the guy from across the hall. Zeph Clemmont is a changeling with enemies in all the worst places, fighting to undo a curse that threatens to end his life. Survival means he will have to swallow his pride and trust Josie with all his darkest secrets. Source of Magic Piers Anthony, 2002-03-26 A quest for the source of power threatened to doom the land of Xanth. As a ruler of a country steeped in enchantment, King Trent was naturally curious about the source of its magic. It made sense to order Bink, the only one of his subjects immune to supernatural harm, to undertake a quest to discover the wellspring of Xanth's uniqueness. From the beginning, Bink and his companions, Chester the centaur and Crombie the soldier transformed into a griffin, were harried by an unseen enemy determined to thwart them. Even the power of Good Magician Humfrey, together with Bink's protective talent, scarcely saved their lives. Then when Humfrey and Crombie turned against him, all seemed lost. But Bink's ingenuity and luck prevailed, and he reached his goal. The King's orders had been carried out, but the King had not expected Bink's next act to destroy utterly the magic of Xanth.

Magic: A History Chris Gosden, 2020-11-10 An Oxford professor of archaeology explores the unique history of magic, the oldest and most neglected strand of human behavior and its resurgence today. Three great strands of belief run through human history: Religion is the relationship with one god or many gods, masters of our lives and destinies; Science distances us from the world, turning us into observers and collectors of knowledge; And magic is direct human participation in the universe, where we have influence on the world around us and the world has influence on us. Over the last few centuries, magic has developed a bad reputation thanks to the unsavory tactics of shady practitioners and to a successful propaganda campaign on the part of religion and science which denigrated magic as backward, irrational, and primitive. In *Magic*, however, the Oxford professor

of archaeology Chris Gosden restores magic to its essential place in the history of the world revealing it to be an enduring element of human behavior that plays an important role for individuals and cultures From the curses and charms of ancient Greek Roman and Jewish magic to the shamanistic traditions of Eurasia indigenous America and Africa from the alchemy of the Renaissance to the condemnation of magic in the colonial period and the mysteries of modern quantum physics Gosden's startling fun and colorful history supplies a missing chapter of the story of our civilization Drawing on decades of research around the world touching on the first known horoscope a statue ordered into exile and the mystical power of tattoos Gosden shows what magic can offer us today and how we might use it to rethink our relationship with the world Magic is an original singular and sweeping work of scholarship and its revelations will leave a spell on the reader *Magic* Isaac Asimov,1996
