Maeda Media:

Maeda @ Media John Maeda, 2001 John Maeda deconstructs the digital world with the earned authority of an MIT trained computer scientist and a card carrying artist. Being ambidextrous with Eastern and Western cultures he can see things most of us overlook. The result is a humor and expression that brings out the best in computers and art. Nicholas Negroponte John Maeda is one of the world's leading experimental graphic designers and is quickly becoming a digital culture icon. His early preoccupation with the intersection of computer programming and digital art has resulted in a fascinating interactive and stunningly beautiful collection of work. Maeda has pioneered many of the key expressive elements that are prevalent on the web today. Among his most well known works are The Reactive Square which features a simple black square on a computer screen that changes shape if one yells at it and Time Paint in which paint flies across the screen. He has created innovative interactive calendars, digital services and advertisements for companies such as Sony Shiseido and Absolut Vodka. This is the first publication to present a complete overview of Maeda's work and philosophy. A glorious visual exploration of ideas and graphic form. Maeda Media takes you through Maeda's beginnings in early computerized printouts to his reactive graphics on CD-ROM to his dynamic experiments on the web to his pedagogical approach to digital visual art and finally to his overarching quest to understand the very nature of the relationship between technology and creativity. Six thematic chapters provide an overview of his entire career and research. But this is not just a catalog of older work interspersed between each chapter is a new visual essay that has been created exclusively for this publication to underline each of the major themes. Coming together in a massive 480 pages printed in a dazzling array of color combinations on three different kinds of paper the result is a manifesto, a finely crafted manual and inspiration sourcebook all in one. With over 1000 illustrations.
