*The Mafia Talks* Joseph Volz, 1969      New Anthropologies of Italy Paolo Heywood, 2024-07-01 Anthropologists working in Italy are at the forefront of scholarship on several topics including migration far right populism organised crime and heritage This book heralds an exciting new frontier by bringing together some of the leading ethnographers of Italy and placing together their contributions into the broader realm of anthropological history culture and new perspectives in Europe

Garden State Gangland Scott M. Deitche, 2017-12-08 The Mafia in the United States might be a shadow of its former self but in the New York New Jersey metro area there are still wiseguys and wannabes working scams extorting businesses running gambling selling drugs and branching out into white collar crimes And they are continuing a tradition that s over 100 years old Some of the most powerful mobsters on a national level were from New Jersey and they spread their tentacles down to Florida across the Atlantic and out to California And many of the stories have never been told Deitche weaves his narrative through significant as well as some lesser known mob figures who were vital components in the underworld machine New Jersey s organized crime history has been one of the most colorful in the country serving as the home of some of the most powerful as well as below the radar mobsters in the Country And though overshadowed by the emphasis on New York City the mob and New Jersey have over the years become synonymous in both pop culture and in law enforcement But for all the press that has been dedicated to the mob and New Jersey for all the law enforcement activity against the mob and for all the pop culture references there has never truly been an examination of the rise of the mob in New Jersey from a historical perspective Until now In *Garden State Gangland* Scott M Deitche sets the historical record straight by providing the first overall history of the mob in New Jersey from the early turn of the century Black Hand gangs to the present and looks at how influential they were was not only to goings on the Garden State but across the New York metro region and the country as a whole

The Sociocultural Context of Psychosocial Interventions Francisco José Eiroa-Orosa, Tim Lomas, Michael Rowe, 2018-12-06 Across diverse academic fields scholars and practitioners are engaged in developing interventions to

promote outcomes like health and quality of life. Indeed, such is the apparent efficacy of such interventions that there are many policy-led initiatives to implement these at national and international scales. However, few scholars or practitioners have thought in any systematic and critical way about the importance of contextualizing these interventions, i.e., considering how the impact of such interventions may be affected and mediated by specific sociocultural factors from gender to ethnicity and socioeconomics. The aim of the Research Topic, *The Sociocultural Context of Psychosocial Interventions*, was to address this lacuna. As such, we tried to help bring a more contextual mindset to the implementation of health and wellbeing interventions. This may help to shift the way such interventions are designed and implemented both at a granular local level, i.e., influencing individual practitioners, and at a large-scale macro level, e.g., influencing policy makers. Themes within this Research Topic have concerned both macro sociocultural as well as meso and micro layers and the peculiarities of implementing real-world research based on these levels. There has been room for physical and mental health for family relationships for educational contexts and even for the effects of crime. Some works have included interesting methodological discussions on the integration of different ecological layers or the modal distribution of our interests. For us, it has been very important to work giving a greater diffusion to these issues since considering psychosocial interventions in the context in which they occur goes beyond an epistemological or methodological discussion. Rather, these considerations seriously affect the ability of practitioners to really reach the people who need their interventions, listening to their needs and respecting their preferences. For the editors of this book, then, the contextualization of interventions means considering the people who receive them as full citizens immersed in complex societies where factors such as social justice and health or wellbeing do not float apart in space but affect each other dialectically. We therefore think that the duty of both academics and practitioners is not to forget that it is as important to evaluate the direct effect of our interventions as the influence we have in the society as a whole when we carry them out. We hope you enjoy reading these works and that their dissemination stimulates new lines of research committed to both good practice and social transformation. FBIS Daily Report, 1994

*Organized Crime* Nikos Passas, 1995. This work on organized crime encompasses methodological problems in the study of organized crime itself, crime as a way of life in America, a family case study, arson and urban economy, corruption in agencies of social control, Canadian reflections on the Finsbury Park experience and drugs. Evening News Association*, 438 MICH 84 (1991), 1991 86351. *The Kefauver Committee and the Politics of Crime, 1950-1952* William Howard Moore, 1974. In 1950, the essentials of two distinct interpretations of organized crime existed side by side in the United States. One was essentially socioeconomic, one conspiratorial. The Kefauver Crime Committee of 1950-1951 was to play a vital role in orienting both professional and popular opinion toward a conspiracy interpretation. In doing so, the Committee ignored the nascent but promising body of sociological literature and it dismissed out of hand the economic and legal arguments for regulation. In years to come, its widely heralded

reports provided the essential material for college textbooks and journalistic accounts and became a model for the McClellan investigation and other official studies This effort was intended as a study of the Committee and not of crime New York Court of Appeals.
