## New Testament In The Language Of Today:

**The New Testament, in the Language of Today** William F. Beck,1963      **The New Testament and Criticism**  
George Eldon Ladd,1967 One unfortunate consequence of the bitter fundamentalist modernist controversy which raged in the early twenties has been the strongly negative attitude toward Biblical criticism assumed by some of the successors to the fundamentalists of the 1920s Such people according to the author insist that the critical method is basically hostile to the evangelical faith and they have continued to oppose any use of it Others however claiming the same heritage believe that the orthodox interpretation of the Gospel can be defended positively and constructively only with the aid of a sound critical method and the results of critical scholarship The author believes that an evangelical Biblical criticism is not only possible but necessary The central thesis of his book is that the Bible is the Word of God given in the words of men in history and as such its historical origins must be reconstructed as far as possible In this way a richer understanding of the Scriptures can be achieved
