New Urbanity The Kallang Basin Redevelo:

New Urbanity Urban Redevelopment Authority, Singapore, Graduate School of Design, Harvard University, 1997 *The Singapore Water Story* Cecilia Tortajada, Yugal Joshi, Asit K. Biswas, 2013 Singapore's journey during the past 45 years is an outstanding example that in spite of multiple hardships pragmatic policies clear visions long term planning forward looking strategies and political will as well as a relentless urge to improve can result in strong foundations for sustainable development This book describes the journey of Singapore's development and the fundamental role that water has had in shaping it What makes this case so unique is that the quest for self sufficiency in terms of water availability in a fast changing urban context has been crucial to the way development policies and agendas have been planned throughout the years The authors analyse plans policies institutions laws and regulations water demand and water supply strategies water quality and water conservation considerations partnerships and importance of the media They assess overall how all these issues have evolved in response to the dynamic needs of the city state The study of Singapore shows how a dynamic society can address development without losing its focus on the environment In the city state environmental concerns in general and water concerns in particular have played a major role in its transformation from a third world to a first world country How and why this transformation took place is the main focus of this authoritative book *Urban Planning in Singapore* Ole Johan Dale, 1999 This book details the process of urban planning in Singapore by tracing its early growth on the banks of the Singapore River to its present structure
