## New Perfume Handbook:

The Perfume Handbook N. Groom, 2012-12-06 In 1948 I was posted as a Political Officer to a remote part of south west Arabia on the edge of the great desert called the Empty Quarter In valleys made fertile by seasonal flood waters lay the remains of an ancient civilization I found inscriptions and the ruin sites of towns palaces and temples Almost buried under the sand dunes were the tumbled walls of a great city From here two thousand years before huge camel caravans had trudged their way along 1600 miles of burning sand and rocks to Petra and Gaza burdened with a most precious cargo frankincense myrrh and other perfume materials for the courts temples and perfume shops of Rome My book Frankincense and Myrrh delved into the details of this romantic trade and led to a broader interest in the perfumes of ancient times Then researching on behalf of a perfume house into the Arab contribution to perfumery I came across the collection of perfume recipes assembled by the Arab philosopher scientist Yaqub al Kindi which have never been translated into English some which I have translated myself are now included in an appendix to this book I realized that in that work I had found key evidence to demonstrate how the medieval Arab perfume makers had been the bridge in perfume history between ancient and modern times Perfumery could now be seen as an art with a continuous history of development since the dawn of civilization

**Sandalwood and Carrion** James McHugh, 2012-11-29 James McHugh offers the first comprehensive examination of the concepts and practices related to smell in pre modern India Drawing on a wide range of textual sources from poetry to medical texts he shows the deeply significant religious and cultural role of smell in India throughout the first millennium CE McHugh describes sophisticated arts of perfumery developed in temples monasteries and courts which resulted in worldwide ocean trade He shows that various religious discourses on the purpose of life emphasized the pleasures of the senses including olfactory experience as a valid end in themselves Fragrances and stenches were analogous to certain values aesthetic or ethical and in a system where karmic results often had a sensory impact where evil literally stank the ethical and aesthetic became difficult to distinguish Sandalwood and Carrion explores smell in pre modern India from many perspectives covering such topics as philosophical accounts of smell perception odors in literature the history of perfumery in India the significance of sandalwood in Buddhism and the divine offering of perfume to the gods

**Fur, Fortune, and Empire: The Epic History of the Fur Trade in America** Eric Jay Dolin, 2010 For all of fur's contentious position in American

culture today historian Eric Jay Dolin shows its centrality in our nation's ever surprising history He argues that the trade in animal skins turned colonial America into a tumultuous frontier where global powers battled for control From the seventeenth century right on up to the Gilded Age the developed world's appetite for fur made the new continent with its wealth of fur bearing wildlife a seemingly inexhaustible resource The result was a major boost in the evolution of the colonies into a powerful new player on the world stage Dolin sheds insight on the ways the fur trade created international tensions in New England the Great Lakes and in the expanding West Fur traders were often the first white men to map major rivers forests and mountains then soon pushed Native Americans off their lands as John Jacob Astor's American Fur Company attempted to monopolize the West From publisher description *The Essence of Perfume* Roja Dove,2008 The Essence of Perfume is the first book by the world's only Professeur de Parfums and is as captivating as it is informative Beginning with a comprehensive discussion of the sense of smell and the materials of the master perfumer The Essence of Perfume goes on to celebrate the great classics from Guerlain's Shalimar and Vol de Nuit to Chanel's No 5 and Nina Ricci's L'Air du Temps the makers who brought them to life and the designers who gave them shape In an age where the methods and motivations of the original perfumers are all but forgotten Roja Dove unfolds the gripping story of scent with all the passion and devotion of a true artist BOOK JACKET *Dangerous Tastes* Andrew Dalby,2000 Dangerous Tastes offers a fresh perspective on these exotic substances and the roles they have played over the centuries The author shows how each region became part of a worldwide network of trade with local consequences ranging from disaster to triumph BOOK JACKET *The Cumulative Book Index* ,1999 **Handbook of Buying Issue** ,1930 **Cumulated Index to the Books** ,1999 *Walch's Tasmanian Guide Book* ,1871
