New Perspectives On Historical Writing:

New Perspectives on Historical Writing Peter Burke, 2001-01 The way in which history is written has changed quite dramatically so much so that the phrase the new history is now commonly used by historians. But what is the new history and how new is it? Is it a temporary fashion or a long term trend? Will it or should it replace traditional history or can the two coexist in peace? This second edition of *New Perspectives on Historical Writing* sets out to answer these questions examining the most exciting and important developments in the methodology and practice of history. Concentrating on some of the more recent movements it sets out to place these within the context of long term changes in the writing of history. Peter Burke is joined here by a distinguished group of internationally renowned historians including Robert Darnton, Ivan Gaskell, Richard Grove, Giovanni Levi, Roy Porter, Gwyn Prins, Joan Scott, Jim Sharpe, Richard Tuck and Henk Wesseling. The contributions examine a wide range of interdisciplinary areas of historical research including women's history, history from below, the history of reading, oral history, the history of the body, microhistory, the history of events, the new history, the history of images, political history and overseas history. This volume has been thoroughly revised and updated for the second edition and includes an entirely new chapter on environmental history. *New Perspectives on Historical Writing* is a timely and important account of the new approaches to the writing of history. It has become a key reference work and is used by students and researchers in a wide range of disciplines: history and historiography, women's studies, anthropology, sociology, politics and literature.

Encyclopedia of Historians and Historical Writing Kelly Boyd,1999 Contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and Herodatus to Simon Schama Over 300 contributors have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from Handbook of Historical Sociology Gerard Delanty,Engin F Isin,2003-06-03 The overall conception of the volume is absolutely splendid and the editors skilfully place the material in the context of disciplinary and post disciplinary developments in sociology This is a major contribution to the field as well as a comprehensive and reliable guide to its main components William Outhwaite Professor of Sociology School of European Studies University of Sussex It is hard to think of anything that has been left out in this masterly survey of contemporary historical sociology The editors have done a superb job in the selection of both themes and contributors We now at last have an up to date book to assign in our graduate courses on comparative historical

sociology There's really nothing else like it out there The editors introduction is one of the best things I have read on how the field developed and the problems it has encountered Krishan Kumar William R Kenan Jr Professor of Sociology University of Virginia The range of topics covered and the number of distinguished scholars who have contributed to the handbook is impressive with leading figures such as Bryan S Turner John R Hall Gianfranco Poggi and Craig Calhoun among the contributors to a book that covers areas as diverse as post colonial historiography and the historical sociology of the city the handbook fills a void within the sizable literature on historical sociology and undoubtedly will be a useful addition to graduate reading lists The British Journal of Sociology What is important in historical sociology What are the main routes of development in the subject This Handbook consists of 26 chapters on historical sociology It is divided into three parts Part One is devoted to Foundations and covers Marx Weber evolutionary and functionalist approaches the Annales School Elias Nelson and Eisenstadt Part Two moves on to consider major approaches such as modernization approaches late Marxist approaches historical geography institutional approaches cultural history intellectual history postcolonial and genealogical approaches The third part is devoted to the major substantive themes in historical sociology ranging from state formation nationalism social movements classes patriarchy architecture religion and moral regulation to problems of periodization and East West divisions Each part includes an introduction that summarizes and contextualizes chapters A general introduction to the volume outlines the current situation of historical sociology after the cultural turn in the social sciences It argues that historical sociology is deeply divided between explanatory sociological approaches and more empirical and interpretative historical approaches Systematic and informative the book offers readers the most complete and authoritative guide to historical sociology New Perspectives on the American Past: 1877 to the present Stanley Nider Katz, 1972

Forthcoming Books Rose Arny, 2001 **Debating New Approaches to History** Marek Tamm, Peter Burke, 2018-10-04 With its innovative format Debating New Approaches to History addresses issues currently at the top of the discipline's theoretical and methodological agenda In its chapters leading historians of both older and younger generations from across the Western world and beyond discuss and debate the main problems and challenges that historians are facing today Each chapter is followed by a critical commentary from another key scholar in the field and the author's response The volume looks at topics such as the importance and consequences of the digital turn in history what will history writing be like in a digital age the challenge of posthumanist theory for history writing how do we write the history of non humans and the possibilities of moving beyond traditional sources in history and establishing a dialogue with genetics and neurosciences what are the perspectives and limits of the so called neurohistory It also revisits older debates in history which remain crucial such as what the gender approach can offer to historical research or how to write history on a global scale Debating New Approaches to History does not just provide a useful overview of the new approaches to history it covers but also offers insights into current historical debates and the process of historical method in the making It demonstrates how the discipline

of history has responded to challenges in society such as digitalization globalization and environmental concerns as well as in humanities and social sciences such as the material turn visual turn or affective turn This is a key volume for all students of historiography wanting to keep their finger on the pulse of contemporary thinking in historical research
