**The Will to Change: Poems 1968-1970** Adrienne Rich, 1971-05-17 The Will to Change is an extraordinary book of poems It has the urgency of a prisoner's journal patient laconic eloquent as if determined thoughts were set down in stolen moments David Kalstone in The New York Times Book Review The Will to Change must be read whole for its tough distrust of completion and for its cool declaratives which fix us with a stare more unsettling than the most hysterical questions It includes moments when poverty and heroism explode grammar with their own dignified unsyntactical demands The poems are about departures about the pain of breaking away from lovers and from an old sense of self They discover the point where loneliness and politics touch where the exercise of the radical courage takes its inevitable toll David Kalstone in The New York Times Book Review *New Poems (1968-1970)* Pablo Neruda, 1972 Hearts and Minds Michael Bibby, 1996 The early 1960s to the mid 1970s was one of the most turbulent periods in American history The U S military was engaged in its longest costliest overseas conflict while the home front was torn apart by riots protests and social activism In the midst of these upheavals an underground and countercultural press emerged giving activists an extraordinary forum for a range of imaginative expressions Poetry held a prominent place in this alternative media The poem was widely viewed by activists as an inherently anti establishment form of free expression and poets were often in the vanguards of political activism Hearts and Minds is the first book length study of the poems of the Black Liberation Women's Liberation and GI Resistance movements during the Vietnam era Drawing on recent cultural and literary theories Bibby investigates the significance of images tropes and symbols of human bodies in activist poetry Many key political slogans of the period black is beautiful off our backs foreground the body Bibby demonstrates that figurations of bodies marked important sites of social and political struggle Although poetry played such an important role in Vietnam era activism literary criticism has largely ignored most of this literature Bibby recuperates the cultural historical importance of Vietnam era activist poetry highlighting both its relevant contexts and revealing how it engaged political and social struggles that continue to motivate contemporary history Arguing for the need to read cultural history through these underground texts Hearts and Minds offers new grounds for understanding the recent history of American poetry and the role poetry has played as a medium of imaginative political expression A Companion to Pablo Neruda Jason Wilson, 2014-08 Pablo Neruda was without doubt one of the greatest poets of the twentieth century but his work is extremely uneven There is a view that there are two Nerudas an early Romantic visionary and a later Marxist populist who denied his earlier poetic self By focussing on the poet's apprenticeship and by looking closely at how Neruda created his poetic persona within his poems this Companion tries to establish what should survive of his massive output By seeing his early work as self exploration through metaphor and sound as well as through varieties of love and direct experience the Companion outlines a unity behind all the work based on voice and a public self Neruda's debt to reading and books is studied in depth and the change in poetics re examined by concentrating on

the early work up to *Residencia en la tierra* I and II and why he wanted to become a poet Debate about quality and representativity is grounded in his Romantic thinking sensibility and sincerity Unlike a Borges or a Paz who accompanied their creative work with analytical essays Neruda distilled all his experiences into his poems which remain his true biography Jason Wilson is Professor Emeritus in the Department of Spanish and Latin American Studies University College London
