The Big Book of Small Python Projects Al Sweigart, 2021-06-25 Best selling author Al Sweigart shows you how to easily build over 80 fun programs with minimal code and maximum creativity. If you've mastered basic Python syntax and you're ready to start writing programs, you'll find *The Big Book of Small Python Projects* both enlightening and fun. This collection of 81 Python projects will have you making digital art, games, animations, counting programs, and more right away. Once you see how the code works, you'll practice re-creating the programs and experiment by adding your own custom touches. These simple text-based programs are 256 lines of code or less. And whether it's a vintage screensaver, a snail racing game, a clickbait headline generator, or animated strands of DNA, each project is designed to be self-contained, so you can easily share it online. You'll create Hangman, Blackjack, and other games to play against your friends or the computer. Simulations of a forest fire, a million dice rolls, and a Japanese abacus. Animations like a virtual fish tank, a rotating cube, and a bouncing DVD logo screensaver. A first-person 3D maze game. Encryption programs that use ciphers like ROT13 and Vigenère to conceal text. If you're tired of standard step-by-step tutorials, you'll love the learn-by-doing approach of *The Big Book of Small Python Projects*. It's proof that good things come in small programs.

The Doomsday Archives: The Wandering Hour Zack Loran Clark, 2024-01-30 A superb choice for fans of Jonathan Stroud's Lockwood & Co. series, Tom Booth's Eerie on Sea books, and creepypastas. Booklist Starred Review. What if your favorite scary story was real? With eerie illustrations and chilling creepypasta interstitials, *The Doomsday Archives: The Wandering Hour* by Zack Loran Clark and Nick Eliopoulos is the first in a deliciously creepy series perfect for readers of Jonathan Stroud, Christian McKay Heidicker, and Scary Stories to Tell in the Dark. New Rotterdam is no place for a kid, and that's what Emrys Houtman likes about it. Emrys obsessively documents his town's urban legends and cryptid sightings in a Wiki along with his neighbors and fellow horror fans Hazel and Serena. It's all in good fun until one day the trio stumbles upon the Doomsday Archives, a collection of relics with dazzling powers and dangerous consequences. When a mysterious blood-red hourglass begins appearing around town and children begin to go missing, the trio must band together to stop the horrors plaguing New Rotterdam or risk losing their home and possibly their lives. Because after all this time hunting monsters, the kids have realized the monsters are now hunting them back.

Webster's New World Easy Crossword Key James H. Capps, 1997-06-03 An exact map of thousands of actual crossword puzzle clues, this book gives answers, not lists of synonyms. It's the perfect help for newcomers to crossword puzzles, for people building word skills, or for anyone stumped by that one obscure clue in a puzzle. Over 179,000 clues and answer words are arranged in a simplified format that makes answers easy to find. Included are many off-the-beaten-path entries and full clue phrases that can't be found in conventional crossword puzzle dictionaries. The author is a lifelong crossword puzzle fan who has compiled the entries for this book over
