are commonly used by the oppressed people new and double meanings Within interaction with other scholars who are publishing studies of hidden transcripts this book is an analysis of hidden transcripts within each of the New Testament documents The book is designed to be used in New Testament Studies courses at undergraduate and or graduate levels by study groups and by all persons who desire a more adequate understanding of the Jesus of history his closest followers and their oral and written communications during the first three centuries C E On the Writing of New Testament Commentaries Stanley E.
