Studies on the Jewish Background of the New Testament

Otto Michel,1969 *The New Testament, an Introduction* Norman Perrin,1974 The New Testament Bruce Manning

Metzger,2003 Dr Metzger has given the reader an invaluable resource for the study of the text of the New Testament The book is divided into three major parts Part one begins with a detailed description of the ancient method of bookmaking Next Metzger lists the major Greek manuscripts and codices as well as a basic description of each He also lists the major non Greek witnesses e g Syriac Coptic Latin etc and discusses the role of quotations from the early church Fathers Part two is devoted to the history of the printed editions of the Greek New Testament from the time of the Complutensian Polyglot and the Textus Receptus the text used for the KJV through Westcott and Hort until the present day Part three is an instruction manual for textual criticism including the many theories of criticism and the method of conjectural emendation In this section Metzger also discusses the many types of errors and deliberate changes made by the scribes He then gives an analysis of several textually difficult passages e g Mark 16 and Acts 20 28 The book also includes 16 photo plates that show selected manuscripts A working knowledge of Greek is helpful because Metzger often cites Greek words in the text and footnotes without an English translation If one wishes to learn the basics and more about textual criticism then this is the book to buy Note should be made that this is a decidedly pro Protestant and pro fundamentalist interpretation of the material under discussion
