Mental Health Care, Google eBook Catherine Hungerford, Donna Hodgson, Richard Clancy, Tony Jones, Anthony Harrison, Chris Hart, 2012-02-02. A text written for non-specialist mental health nursing courses and suitable for undergraduate students from nursing and other health disciplines, which is supported by integrated online resources. This is an adaptation of a Wiley Blackwell title by Harrison Hart editors. Mental Health Care for Nurses designed to meet the needs of undergraduate students. Mental Health Nursing is generally a core second year subject and may be taken by nurses, paramedics, occupational therapists, and other health disciplines. The focus is not on the general hospital as many nurses and other health professionals in Australia will not necessarily be working in the hospital setting. It is important to consider the role of the multidisciplinary team.

Health Informatics - E-Book Lynda R. Hardy, 2022-12-02. American Journal of Nursing AJN Book of the Year Awards 1st Place in Informatics 2023 Selected for Doody's Core Titles 2024 in Informatics. Learn how information technology intersects with today's health care. Health Informatics An Interprofessional Approach 3rd Edition follows the tradition of expert informatics educators Ramona Nelson and Nancy Staggers with new lead author Lynda R. Hardy to prepare you for success in today's technology-filled healthcare practice. Concise coverage includes information systems and applications such as electronic health records, clinical decision support, telehealth, mHealth, ePatients, and social media tools, as well as system implementation. New to this edition are topics that include analytical approaches to health informatics, increased information on FHIR and SMART on FHIR, and the use of health informatics in pandemics. Chapters written by experts in the field provide the most current and accurate information on continually evolving subjects like evidence-based practice, EHRs, PHRs, mobile health, disaster recovery, and simulation. Objectives, key terms, and an abstract at the beginning of each chapter provide an overview of what each chapter will cover. Case studies and discussion questions at the end of each chapter encourage higher level thinking that can be applied to real world experiences. Conclusion and Future Directions discussion at the end of each chapter reinforces topics and expands on how the topic will continue to evolve. Open ended discussion questions at the end of each chapter enhance students' understanding of the subject covered. The mHealth chapter discusses all relevant aspects of mobile health, including global growth, new opportunities in underserved areas, governmental regulations on issues such as data leaking and mining.

implications of patient generated data legal aspects of provider monitoring of patient generated data and increased responsibility by patients Important content including FDA and state based regulations project management big data and governance models prepares students for one of nursing s key specialty areas UPDATED Chapters reflect the current and evolving practice of health informatics using real life healthcare examples to show how informatics applies to a wide range of topics and issues NEW Strategies to promote healthcare equality by freeing algorithms and decision making from implicit and explicit bias are integrated where applicable NEW The latest AACN domains are incorporated throughout to support BSN Master s and DNP programs NEW Greater emphasis on the digital patient and the partnerships involved including decision making
