*Mobile Communications* Nicola Green,Leslie Haddon,2009-11-01 The mobile phone has achieved a global presence faster than any other form of information and communication technology A global multi billion dollar industry this small mundane device is now an intrinsic part of our everyday life This communications medium has had an immense social and cultural impact and continues to evolve Talking texting photographing videoing connecting to a network of other media the cellphone now seems essential But beyond the ways in which it has actively restructured our daily lives the mobile has changed our sense of ourselves and the way we see the world The relationship between public and private space how we view time and space how we rely on and negotiate social networks all are increasingly centred on this small piece of technology *Mobile Communications* presents a succinct challenging and accessible overview of the transformations and challenges presented by this most personal yet most overlooked technology *Ethics and Human Rights in a Globalized World* Klaus Hoffmann-Holland,2009 In a globalized world an interdisciplinary dialogue on ethics and human rights is possible necessary and fruitful for jurisprudence Human rights can be understood as formalized ethics and ethics can thus serve as a foundation for human rights They are the framework for a communication of rights and this communication is the context in which wrongs can be transformed into rights Ethics do however also shape existing recognized human rights Human rights are ethics in action The enforcement of human rights especially in international criminal law as well as the implementation structures bring the ideas and principles of rights to life in a globalized world Thus it is advisable to take an interdisciplinary approach to participation rights social rights and human rights in general in private and in public life This work contains

articles that were presented at an international and interdisciplinary conference on Ethics and Human Rights in a Globalized World in Jerusalem in the fall of 2008 Young researchers from Israel and Germany who work in the fields of law philosophy political science and theology deal with the foundation of human rights the conflict between varying human rights and effective implementation structures The part played by the World Bank in implementing human rights is highlighted as is the significance of local cultural backgrounds Other articles deal with the correlation of international criminal law and human rights The book also contains an article by Aharon Barak former Chief Justice of the Israel Supreme Court     Understanding New Media Eugenia Siapera,2011-11-30 An admirably clear sighted and engaging analysis of contemporary forms of mediation illuminating the dynamics of new media across social political and cultural spheres Eugenia Siapera provokes her reader to think afresh about familiar phenomena to synthesise diverse theoretical positions and to stretch their imaginations to anticipate what is coming Sonia Livingstone London School of Economics and Political Science An excellent introduction to the past present and future of the electronic networked media world By carefully examining the complex interactions between society and media Siapera insightfully illuminates the social political economic and cultural consequences of our increasingly electronically networked and mediated world a highly useful teaching tool and an engaging read for students teachers and scholars Steve Jones University of Illinois Chicago New media are everywhere yet with so many technological developments and theoretical perspectives understanding them has never been more difficult Eugenia Siapera explains the key concepts and approaches to the impact of new media on the economy society identity politics friendship citizenship and everyday life Putting the student first this book Engages the reader with integrated up to date case studies Brings it all together with chapter summary charts Challenges students to apply concepts with e tivities Provides key further online readings here This book is both starting point and map for any student of new media and digital culture     *Remediating McLuhan* Richard Cavell,2025-10-01 While current scholarly interest has assured Marshall McLuhan s 1911 80 foundational status as a media theorist much room still exists for further exploration of his writings which have taken on additional layers of significance in our contemporary digital moment Holding that media were extensions of the human McLuhan also posited that the human was a product of technology Ranging across fields as diverse as art history biotechnology and beyond this collection of essays considers McLuhan s ground breaking approach within a number of new contexts and explores the distinguishing features of his media theory     The Class Sonia Livingstone,Julian Sefton-Green,2016-05-03 An intimate look at how children network identify learn and grow in a connected world Read Online at [connectedyouth.nyupress.org](http://connectedyouth.nyupress.org) Do today s youth have more opportunities than their parents As they build their own social and digital networks does that offer new routes to learning and friendship How do they navigate the meaning of education in a digitally connected but fiercely competitive highly individualized world Based upon fieldwork at an ordinary London school The Class examines young people s experiences of growing up and learning in a digital world In this original and engaging study Livingstone and Sefton Green

explore youth values teenagers perspectives on their futures and their tactics for facing the opportunities and challenges that lie ahead The authors follow the students as they move across their different social worlds in school at home and with their friends engaging in a range of activities from video games to drama clubs and music lessons By portraying the texture of the students everyday lives The Class seeks to understand how the structures of social class and cultural capital shape the development of personal interests relationships and autonomy Providing insights into how young people s social digital and learning networks enable or disempower them Livingstone and Sefton Green reveal that the experience of disconnections and blocked pathways is often more common than that of connections and new opportunities The Internet in China Zixue

Tai,2007-05-07 The Internet in China examines the cultural and political ramifications of the Internet for Chinese society The rapid growth of the Internet has been enthusiastically embraced by the Chinese government but the government has also rushed to seize control of the virtual environment Individuals have responded with impassioned campaigns against official control of information The emergence of a civil society via cyberspace has had profound effects upon China for example in 2003 based on an Internet campaign the Chinese Supreme People s Court overturned the ruling of a local court for the first time since the Communist Party came to power in 1949 The important question this book asks is not whether the Internet will democratize China but rather in what ways the Internet is democratizing communication in China How is the Internet empowering individuals by fostering new types of social spaces and redefining existing social relations *Qualitative*

*Discourse Analysis in the Social Sciences* Ruth Wodak,Michal Krzyzanowski,2017-09-16 What can language tell us about society Looking at a range of genres from political speeches to internet chat this book shows how qualitative methods are used to analyse discourses throughout the social sciences The practical problems of designing and conducting discourse based research are solved in this key resource for all social scientists *Understanding the New Media* K.
