New Mutualism In Public Policy

Ellen Stewart

New Mutualism In Public Policy:

The New Mutualism in Public Policy Johnston Birchall, 2002-09-10 Mutuality has become a topic of debate recently for a whole range of academics and social commentators The demutualisation of banks and building societies has been partnered by the idea of a new mutualism forming a set of social values and beliefs and this collection looks at the manifestations of these trends and the implications for the future *Publics and Their Health Systems* Ellen Stewart, 2016-04-08 Drawing on a detailed case study of Scotland's National Health Service this book argues that debates about citizen participation in health systems are disproportionately dominated by techniques of invited participation A system's eye perspective while often well intentioned has blinded us to other standpoints for understanding the complex relationship between publics and their health systems *Publics and Their Health Systems* takes a citizen's eye perspective exploring not only conventional invited participation but also the realms of representative democracy contentious protest politics and the micro level tactics used by individual citizens in their encounters with health services The book highlights more oppositional dynamics than those which characterise much invited participation and argues that understanding these is a crucial step towards a more inclusive and democratic health system *Vertical Markets and Cooperative Hierarchies* Kostas Karantininis, Jerker Nilsson, 2007-05-24 *Vertical Markets and Cooperative Hierarchies* comprises a selection of sixteen newly written essays that provide clarification to issues pertinent to contemporary cooperatives Twenty three internationally recognized scholars of agricultural cooperatives from a variety of disciplines such as industrial organization finance sociology networks and political theory contributed theoretical work and empirical observations from different countries The book is divided into five Parts I Cooperatives between markets and hierarchies II Governance III Internal organizational issues IV Conduct of cooperatives and V Cooperative performance *Re-Thinking the Future of Work* Colin C. Williams, 2007-02-28 How will work be organised in the future With its global perspective and critical approach *Re Thinking the Future of Work* provides not only an overview and examination of the array of competing visions but also a radical rethink about the direction of change

Patients, Power and Responsibility John Spiers, 2018-12-14 Care pathways are being developed throughout the health service to improve the quality and effectiveness of care Are they being developed efficiently and making the most of the latest clinical computing systems This is the first practical guide on how Information Technology and systems methods can support the development implementation and maintenance of e Pathways Case studies throughout highlight team approaches to facilitation clinical knowledge management process analysis and redesign and computerisation providing insights into how e Pathways can be used to support high quality patient care The information is presented in an easy to read style and requires no prior knowledge of IT systems Doctors nurses and managers throughout primary and secondary care as well as healthcare information technology specialists and suppliers will find this to be essential reading An accompanying CD ROM includes supplementary information providing useful website links and additional material on specific topic areas The

Routledge Companion to the Cultural Industries Kate Oakley, Justin O'Connor, 2015-05-22 The Routledge Companion to the Cultural Industries is collection of contemporary scholarship on the cultural industries and seeks to re assert the importance of cultural production and consumption against the purely economic imperatives of the creative industries Across 43 chapters drawn from a wide range of geographic and disciplinary perspectives this comprehensive volume offers a critical and empirically informed examination of the contemporary cultural industries A range of cultural industries are explored from videogames to art galleries all the time focussing on the culture that is being produced and its wider symbolic and socio cultural meaning Individual chapters consider their industrial structure the policy that governs them their geography the labour that produces them and the meaning they offer to consumers and participants The collection also explores the historical dimension of cultural industry debates providing context for new readers as well as critical orientation for those more familiar with the subject Questions of industry structure labour place international development consumption and regulation are all explored in terms of their historical trajectory and potential future direction By assessing the current challenges facing the cultural industries this collection of contemporary scholarship provides students and researchers with an essential guide to key ideas issues concepts and debates in the field *The Journal of Corporate Law Studies*, 2002

Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

Journal of Co-operative Studies, 2004 Consumerism and the Co-operative Movement in Modern British History Lawrence Black, Nicole Robertson, 2009-10-15 Despite the abundance and quality of recent historical writing on consumerism it cannot be said that the modern Co operative movement Co op has been well served It has also been by passed in studies that locate Britons identity in their consumption The reasons for this can be found in the widely perceived decline of the Co op since the 1950s but also in various historiographical agendas that have resulted in its relative invisibility in modern British history This book by demonstrating the variety of broader issues that can be addressed through the Co op and the vibrancy of new historical research into consumption seeks to remedy this This book both of the Co op in a broader context and of new approaches to the history of consumption combines the work of leading authorities on the Co op with recent scholarly research It explores the Co op s distinctive interface between everyday issues and grander idealistic concerns The chapters intersect to examine a broad range of themes notably the politics of consumerism including consumer protection ethical and fair trading and alternatives to corporate commerce design and advertising the Co op s relations with other components of the labour movement and its ideology image and memory The collection looks at the Co operative movement locally through specific case studies nationally and also in comparison to the European movement This collection will appeal to academics

researchers teachers and students of the economic cultural and political history of twentieth century Britain It will also be of interest to academics and students of business studies and co operative members themselves

Environment and Planning, 2003 Publishes interdisciplinary research on issues of Government and Policy with an international perspective Committed to a broad range of policy questions not just those related to government and public policy Topics covered include nonstate agents private public collaboration and NGOs nongovernmental organisations All areas of economic social and environmental institutions and policy are included Disciplines from which papers are derived include political science planning geography economics law sociology and public administration

Globalised Football Nina Clara Tiesler, Joao Nuno Coelho, 2013-10-31 When studying the social phenomena in and around football five major aspects of globalisation processes become evident international migration the global flow of capital the syncretistic nature of tradition and modernity in contemporary culture new experiences of time and space and the revolution in information technologies In an exploration of these themes the collection provides insight into academic studies of football in Portugal Germany England Spain Brazil Angola Mozambique China Japan South Korea Russia and the USA At examining football related phenomena under the headings of nations and migration myths and business the city and the dream it shows how modernised football itself is object and subject in processes of both neo liberal globalisation and counter hegemonic globalisation While the contributions highlight characteristics of particular local and national contexts the volume focuses on global centre periphery relations and migration trajectories of football professionals by analysing recent developments in post colonial Portuguese speaking areas The high ranking of Portuguese football not only serves in nationalist discourses or in order to emancipate the country from a marginal position it also turns Portugal into a football talent exporter confronting it partly with the same ambiguous consequences as Brazil and the African countries who lose their football talents to the European centre The receiving countries again include Portugal This book was previously published as a special issue of Soccer in Society

A Commodified World Colin C. Williams, 2005-03-04 This volume provides a critique of the assumption of increasing commodification in the modern economy

International Labour Review, 1925

Children, Young People and Social Inclusion E. Kay M. Tisdall, 2006 This book asks how far and in what way social inclusion policies are meeting the needs and rights of children and young people Leading authors write from a variety of backgrounds and disciplines including social policy education geography and sociology The book critically examines the concepts of participation and social inclusion and their links with children and childhoods and considers the geography of social inclusion and exclusion It explores young people's own conceptualisations of social inclusion and exclusion and examines how these concepts have been expressed in policy at various levels The book concludes with an agenda for progressing participation and social inclusion both for and with children and young people Children young people and social inclusion will be of interest to academics students and policy makers as well as to a wide range of practitioners including teachers youth workers participation workers and those

working in interagency settings **Public Policy in the New Europe** Fergus Carr, Andrew Massey, 1999 In the first part the authors introduce theories of public policy the policy process and decision making They then discuss Eurogovernance in the light of issues such as immigration health policy eastward expansion of the European Union EU structural funding and defence policy Their findings are that there is no correct way to analyze Europe s public policy and governance the type of analysis changes according to its context Also discussed is the continuing hegemony exercised by the USA in for example security and defence issues as well as economic management The book emphasizes the dangers emanating from regions of instability dangers if not properly addressed could pose a threat to the grand designs of the architects of the EU s political and cultural destiny **The Indian Journal of Agricultural Economics** ,2002 Vols include Proceedings of the conference of the Indian Society of Agricultural Economics Review of International Co-operation ,2005 **Forthcoming Books**
Rose Arny,2001-06 **Doing Security** Mark Button,2008-10-23 Doing Security brings together the latest theoretical thinking research and best practice globally to provide radical proposals to enhance the effectiveness of security in society at national and organizational levels It sets out a model for delivering security in organizations that can offer new competitive advantages based upon a reconfiguration of security management as Security Risk Management It also sets out a policy agenda at national level for more effective regulation of the security profession arguing for the creation of security unions based on the model of credit unions This study is essential reading for all those concerned with security and risk management and crime prevention BOOK JACKET
