New Objectivity Sergiusz Michalski, 2003 Drawing on new research from local archives as well as reinterpretations of published literature Power and the People describes how England remained governable between 1525 and 1640 despite the wars famine epidemics and dynastic and religious crises of the period The book surveys the mechanisms of authority at various levels from the street and alehouse to the manor and the royal court Maintaining order was a difficult challenge given that England had no standing army or professional police and Alison Wall investigates everything from the roles of village constables to the social cohesiveness that came from civic celebrations and participatory politics Her book provides students with a rich perspective on the social world and political culture of early modern England **Expressionism and**

Poster Design in Germany 1905-1922 Kathleen G. Chapman, 2019-01-21 In Expressionism and Poster Design in Germany 1905 1925 Kathleen Chapman re defines Expressionism by situating it in relation to the most common type of picture in public space during the Wilhelmine twentieth century the commercial poster Focusing equally on visual material and contemporaneous debates surrounding art posters and the image in general this study reveals that conceptions of a modern image were characterized not so much by style or mode of production and distribution but by a visual rhetoric designed to communicate more directly than words As instances of such rhetoric Expressionist art and posters emerge as equally significant examples of this modern image demonstrating the interconnectedness of the aesthetic the utilitarian and the commercial in European modernism *The Visual Arts in Germany, 1890-1937* Shearer West, 2000 This work provides an introduction to the visual arts in Germany from the early years of German unification to World War II The study is an analysis of painting sculpture graphic art design film and photography in relation to a wider set of cultural and social issues that were specific to German modernism It concentrates on the ways in which the production and reception of art interacted with and was affected by responses to unification conflict between left and right political factions gender concerns contemporary philosophical and religious ideas the growth of cities and the increasing importance of mass culture New Objectivity Stephanie Barron, Sabine M. Eckmann, 2015 Between the end of World War I and the Nazi assumption of power Germany's Weimar Republic 1919 1933 functioned as a thriving laboratory of art and culture As the country experienced unprecedented and often tumultuous social economic and political upheaval many artists rejected Expressionism in favour of a new realism to capture this emerging society Dubbed Neue Sachlichkeit New Objectivity its adherents turned a cold eye on the new Germany its desperate prostitutes and crippled war veterans its alienated urban landscapes its decadent underworld where anything was available for a price Showcasing 150 works by more than 50 artists this book reflects the full diversity and strategies of this art form Organised around five thematic sections it mixes photography works on paper and painting to bring them into a visual dialogue Artists such as Otto Dix George Grosz and Max Beckmann are included alongside figures such as Christian Schad Alexander Kanoldt Georg Schrimpf August Sander Lotte Jacobi and Aenne Biermann Also included

are numerous essays that examine the politics of New Objectivity and its legacy the relation of this new realism to international art movements of the time the context of gender roles and sexuality and the influence of new technology and consumer goods Published in association with the Los Angeles County Museum of Art AUTHOR Stephanie Barron is a Senior Curator and heads the Modern Art department at the Los Angeles Contemporary Museum of Art Sabine Eckmann is the William T Kemper Director and Chief Curator of the Mildred Lane Kemper Art Museum in St Louis Missouri 300 colour illustrations

Bodily Desire, Desired Bodies Esther K. Bauer, 2014-06-24 Bodily Desire Desired Bodies examines the diverse ways that literary works and paintings can be read as screens onto which new images of masculinity and femininity are cast Esther Bauer focuses on German and Austrian writers and artists from the 1910s and 1920s specifically authors Franz Kafka Vicki Baum and Thomas Mann and painters Otto Dix Christian Schad and Egon Schiele who gave spectacular expression to shifting trends in male and female social roles and the organization of physical desire and the sexual body Bauer s comparative approach reveals the ways in which artists and writers echoed one another in undermining the gender duality and highlighting sexuality and the body As she points out as sites of negotiation and innovation these works reconfigured bodies of desire against prevailing notions of sexual difference and physical attraction and thus became instruments of social transformation

in Germany characterized by its critical realism social commentary and detailed depiction of contemporary life it marked a significant departure from Expressionism's emotional intensity But it was divided by two philosophies the unflinching and socially critical Verists Otto Dix George Grosz Georg Scholz and others and the Classicists Alexander Kanoldt Georg Schrimpf and Christian Schad who focused on harmony and beauty This wide ranging survey explores the tension between these camps and interprets it as a coherent chapter in art history Essays by leading experts shed new light on the movement through the lens of regionality while considering a wide spectrum of media architecture design drawings film paintings photography and philosophy Their illuminating texts are accompanied by stunning reproductions of works such as Otto Dix's Portrait of the Lawyer Dr Fritz Glaser Georg Scholz's Of Things to Come and Marcel Breuer's Chair B 33 Impeccably produced and researched this volume captures the ways that the New Objectivity proponents mirrored the Weimar period's cultural political and social complexities
