The Poems of T. S. Eliot, Volume II T. S. Eliot, 2018-12-04 The second volume of the first paperback edition of The Poems of T S Eliot featuring Old Possum's Book of Practical Cats and his translation of Anabase This two volume critical edition of T S Eliot's poems establishes a new text of the Collected Poems 1909-1962 rectifying accidental omissions and errors that have crept in during the century since Eliot's astonishing debut The Love Song of J Alfred Prufrock In addition to the masterpieces The Poems of T S Eliot contains the poems of Eliot's youth which were rediscovered only decades later poems that circulated privately during his lifetime and love poems from his final years written for his wife Valerie Calling upon Eliot's critical writings as well as his drafts letters and other original materials Christopher Ricks and Jim McCue have provided a commentary that illuminates the imaginative life of each poem Following the collected and uncollected poems of the first volume this second volume opens with the two books of verse of other kinds that Eliot issued the children's verse of Old Possum's Book of Practical Cats and Anabasis his translation of St John Perse's Anabase This volume then gathers the verses that Eliot contributed to the learnedly lighthearted exchanges of Noctes Binanian and others that he wrote off the cuff or for intimate friends Each of these sections is accompanied by its own commentary Finally pertaining to the entire edition there is a comprehensive textual history that contains not only variants from all known drafts and the many printings but also extended passages amounting to hundreds of lines of compelling verse

Modernist War Poetry Jamie Wood, 2022-10-19 This study examines the work of the principle architects of Anglo American modernist poetics T S Eliot H D Ezra Pound Gertrude Stein Edward Thomas and Wallace Stevens and their response to the challenge of combatant war poetries It argues that these civilian poets sought to negotiate directly with the combatant's gnosticism specifically with the

combatant's assertion that only those present at a catastrophe could properly represent its horrors. The modernists rightly identified that gnosticism was a threat to their own representational claims on an increasingly traumatic modernity. How was the imagination to be salvaged in order that it could still feel into the wounded experience of others? In response to this challenge, the modernists drafted their own imagined war poems, developing in the process several different and contradictory poetic systems. Whereas scholarship ordinarily tells the story of intra-war modern poetry as a series of different schools—the trench lyric, the home front elegy, and the modernist long poem—each moving in a different direction, this study brings those traditions back together into one history by treating them as idiosyncratic responses to the same aesthetic problem.
